Brown Resignation Lends New Outlook To City Elections

Alderman to Quit City Post Owing to Uncertain Health and Pressure of Business; By-election Required For Unexpired One-year Term; Harold O. Simpson Will Run For Alderman

No Opponent For Mayor Leeming Yet

Cleared of the threat of disqualification by action of the Legislature last week, Alderman P. R. Brown today presented his resignation to the City Council. A letter from him to the mayor and aldermen will be read at tonight's council meeting.

Ald. Brown gave as the reasons for his departure from the council, on which he would have had another year of his two-year term to serve, the pressure of his private business, uncertain health and the "unpleasant embarrassment" to which he had been subjected recently.

His decision to leave office gave a new complexion to the City Council election field, necessitating a by-election for the one-year term.

LETTER OF RESIGNATION

Alderman Brown's letter of resignation follows:

"I hereby present to you with reluctance my resignation from your council, a step which I have decided upon in view of the condition of my health and in some measure of the recent, and to say the least, unpleasant embarrassment to which I have been subjected from certain quarters. I assure you that I always have greatly enjoyed my municipal work during my nine years of service as a member of the City Council and three years of service as a member of the Board of School Trustees, and shall very much miss the most pleasant association with my colleagues on the council.

"As a taxpayer I shall attach with keen interest the future acts of the council, and always will be ready to give any assistance within my power in the advancement of the best interests of our fine city."

The by-election to fill Alderman Brown's seat will be held on December 10, the same day as the general civic elections, but nominations will be received on December 7, instead of December 3, the by-election calling for less time between filing of nominations and the polling.

LOG EXPORTS AT NEW MARK

B.C. Overseas Shipments Near Billion-foot Mark in Ten Months

British Columbia's overseas lumber exports this year will run well over the billion-foot mark—a new all-time record—it was assured as Pacific Lumber Inspection Bureau figures for October were made public today.

Last month the province sent out 98,161,648 feet of lumber to overseas markets, an increase of 28,000,000 feet over October last year but some 8,000,000 feet less than this year's September shipments.

Total exports for the ten months ending October 31 were 969,420,000, 300,000,000 feet greater than, for the same period of last year.

The United Kingdom took 75,690,799, or approximately 75 per cent of the entire overseas exports in October. Shipments to the Atlantic Coast fell off last month, amounting to only 322,492 feet. Eastern Canada took 2,097,274 feet.

Improvement in the export market is reflected in production figures. The log scale up to the end of the month was 2,324,214,964 board feet against 2,040,184,621 last year, up 13 per cent. The October scale was 311,562,616 feet against 263,961,956 in September and 264,727,232 in October last year.

Shells Fall In Madrid Centre

Associated Press
Madrid, Nov. 23.—Insurgent gunners resumed their cannonade today, crashing six shells into the heart of the Spanish capital. It was feared the bombardment had caused many casualties and great property damage.

One of the shells fell near the Puerta del Sol, central square, while others exploded in the nearby Plaza del Carmen and Plaza de Bilbao. Crowds scurried from the Puerta del Sol to the safety of the Gran via subway station. Others, fearing a renewal of the air raids on the capital city today, threw themselves into the street gutters.

MINISTRY DAMAGED
Insurgent planes early today dropped several bombs on the Ministry of War in the heart of the city.

Expect Refund Plan To Operate Shortly

PART OF FUEL REPORT DOWN

Recommendations regarding the distribution and sale of gasoline and oil products in British Columbia have been made to the provincial government as a preliminary to the report of Mr. Justice M. A. Macdonald, royal commissioner on the coal and petroleum industry inquiry, it was learned today.

Changes in the present method of handling the gasoline system are said to be proposed by the commissioner. The government, it was learned, does not consider the preliminary submissions as complete enough without the full text of the report and probably will wait until this is presented before making it public and considering action.

Mr. Justice Macdonald commenced his investigation into the coal and petroleum industries two years ago, devoting his time to it between sessions of the B.C. Court of Appeal. He was assisted by C. H. O'Halloran of Victoria as chief counsel.

The inquiry was the most extensive ever held on the subject in this province. It involved public hearings at various centres of the province and investigations further afield into the operations of oil companies. Up to March 31 of this year the inquiry had cost \$57,633.52, of which \$21,211.51 was charged to fees and expenses of the chief counsel.

Inauguration of Scheme to Reduce Carrying Charges on City Debt Expected Early in January

Inauguration of the modified Henley civil refunding scheme early in January was forecast by members of the delegation which visited Great Britain and eastern Canada as they completed preparation of their report for the City Council today.

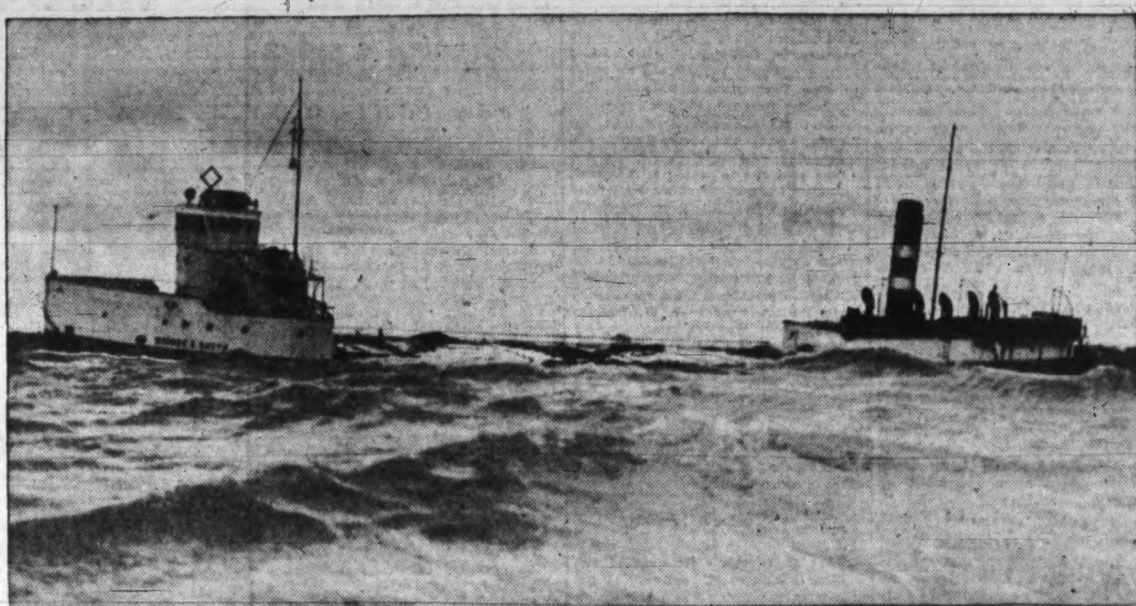

Approval of the plan by well over 51 per cent of the bondholders interested in the city's \$12,500,000 debentures, was virtually assured, it was stated. The original arrangement will be modified to meet the requirements of the new refunding clauses in the Municipal Act.

Endorsement of the city's scheme to reduce the interest charges on the total debt to a flat 4 per cent and to extend payment over a longer period of years, awaited the final survey of Jules Fortin, eastern representative of the bondholding majority. Mr. Fortin's work in this city, it was understood, would consist in a large measure of checking figures presented to bondholders' meetings in Britain and Toronto by the city delegation. When those figures have been approved, members of the delegation feel a refunding plan will be put into effect.

British interests, unwilling to take the initiative, had announced their intention of basing their action on

Stranded Freighter in Lake Erie Swept by Great Waves

The freighter Sidney Smith of Buffalo, N.Y., is pictured above as she lay aground near the entrance to Fairport, Ohio harbor, with waves created by a fifty-mile-an-hour gale battering her and imperiling her crew of twenty-six men. The photo was made from a pitching U.S. coast guard surf-boat which managed to circle the vessel at dawn after night-long attempts had failed. The ship was stranded for a time 400 feet off shore while headed for a refuge in the harbor. The outcome was more fortunate than that in several ship casualties in the Great Lakes in recent weeks, the latest of which was the sinking of the motorship Hibou in Georgian Bay last Saturday with a loss of seven lives.

MANY PRIVATE HEALTH PLANS

Insurance Commission to Rule Which Come Under Government System

Firms in British Columbia who claim exemption from the government's health insurance system by reason of having private schemes, will have to fill out six-page forms detailing the operation of their own plans, the health insurance commission announced today.

Two hundred firms, with 45,000 employees, have reported to the commission that they have schemes of sickness and health benefits, of one kind or another, in force. The commission this week started a check up to find out how many of them will be forced into the government plan and which ones shall be allowed to continue.

Under the Health Insurance Act private schemes must come up to a certain standard and must have been in effect before the legislation was passed in order to get exemption. The commission staff is busy segregating individual registrations for health insurance, which will go into effect in British Columbia early next year. Some 60,000 employees, mostly in the under-\$1,800 salary classification, have reported so far, and returns are still being made. It will be a month, at least before the commission can determine how many wage-earners are eligible for benefits for themselves and dependents.

E. Stickling, German Engineer, and Eight Russians Under Death Sentence in Siberia; Berlin Paper Warns of Firm Reich Action

Associated Press
Novosibirsk, Western Siberia, Nov. 23.—Plea for clemency and the forty-eight-hour interval after sentence customary in Russia were all that stood today between nine men convicted of anti-Communist sabotage and death.

The men—eight Russians and a German engineer—were convicted yesterday of plotting against the Soviet regime and killing fourteen miners in a conspiracy to wreck the great Kammerov Mines. Eight pleaded guilty and the ninth confessed "partial guilt."

E. Stickling, the German, was the first foreign engineer to be sentenced to death in a Russian sabotage trial in seven years.

In Moscow, German Ambassador Frederick von Schulenburg appealed to N. M. Krestinsky, Vice-Commissioner of Foreign Affairs, to postpone the execution until the embassy could study the evidence and submit an official protest.

THREE DOZEN HELD

Twenty-seven other Germans are included among the three dozen foreigners awaiting trial on similar charges of espionage and conspiracy to wreck Soviet industrial enterprises. Two of the four counts on which the men were convicted were based on gas explosions in the Kammerov Mines, second most important in the Soviet Union.

Stickling was found guilty also of maintaining contact with "the secret police of one foreign state." He added:

In Conference

JOACHIM VON RIBBENTROP

Associated Press
London, Nov. 23.—Joachim von Ribbentrop, German ambassador to Great Britain, conferred with Prime Minister Baldwin for three-quarters of an hour at No. 10 Downing Street today. The subject of the conference was not disclosed.

Report—which were not confirmed circulated in diplomatic circles that Germany might be considering the possibility of breaking off diplomatic relations with Russia to give the Nazis a free hand in Russia.

Foreign Secretary Eden today said the Spanish and French ambassadors, as well as Von Ribbentrop.

Britain Asks Japan Apology

Amends Demanded For Torture of Three Sailors at Keelung, Formosa

Associated Press
London, Nov. 23.—Great Britain has demanded an apology from the Japanese Government for the beating and torture of three British sailors at Keelung, Formosa, Foreign Secretary Eden disclosed to the House of Commons today.

Japanese police, officers of the British Asiatic squadron reported, jabbed a fountain pen under the fingernails of one sailor and squirted ink into the wound to make him sign a "confession."

The incident, which caused Vice-Admiral Sir Charles Little, commander of the British Far East naval forces, to postpone a visit to Japan, occurred October 7.

According to British naval officers the three sailors were arrested for alleged failure to pay a taxi fare, and when they protested they had paid, were beaten in the faces by Japanese police and plainclothesmen.

PUNISHMENT REQUESTED

The British Government, Mr. Eden told the House of Commons, has demanded punishment of the offenders and payment of compensation to the victims.

If Japan does not comply, Mr. Eden said, the British commander-in-chief in Far Eastern waters will snub Japanese officialdom by cancelling a courtesy call scheduled for Yokohama November 30.

German Jobless Total 1,076,000

Associated Press
Berlin, Nov. 23.—Germany's unemployment figure increased by 40,000 to 1,076,000 in October, 1936.

Despite this increase, which is cited "seasonal," the total of unemployed is claimed to be 750,000 less than in October last year.

At present 165 out of every thousand Germans are without a job.

BODY TAKEN FROM ALASKA TOWN DEBRIS

With Mrs. Gus Erickson Dead, Reports of Persons Missing Range Up to Twenty-five; Nine Persons in Hospitals as Rescue Crews Speed Their Digging Into Enormous Mass of Earth and Stones From Mountain; Four Buildings Demolished

Associated Press

Juneau, Alaska, Nov. 23.—One woman was killed, nine persons were in hospitals and from five to twenty-five persons were reported missing as rescuers today worked to clear away tangled debris which swept down a mountainside in two torrents of mud yesterday and buried part of Juneau's apartment house district.

The body of Mrs. Gus Erickson, found crushed behind a stove, was removed from her frame house and taken to the morgue.

Mr. Erickson was in a hospital today. He was crushed and injured internally in the giant slide, which virtually obliterated the house.

Mrs. William Lott, negro, was the ninth person to be taken to the hospital. Rescuers dug her from the debris of a house, where they found her partly crushed by a piano.

DEATHS REPORTED

Three other persons were reported dead, but this could not be authenticated immediately, and they were listed with the missing.

The slide, aggravated by heavy rains, rumbled down the mountainside late yesterday, after a smaller one had given warning. Two apartment houses, a lodging house, a two-story concrete store and several houses were demolished.

ENORMOUS LOSS

Large forces of rescuers, working throughout the night, made little impression on the mass of rock and mud.

Cautious searching of the debris was hampered during the early morning hours by darkness, with timbers taken from the debris being set afire to afford flares by which the crews could work.

HEARD CRIES

As the crews labored in the night they could hear cries from persons in the wreckage. Fire chief V. M. Mulvihill was one of those directing the rescue work.

CAUSED BY RAINS

Released by heavy rains during the last few days, the first slide did slight damage. It was followed a few hours later by a torrent of earth 100 feet wide and ranging from ten to forty feet deep.

As the rumble of the slide was heard by persons living at the foot of the mountain, some rushed from their homes.

The big slide cut off power lines, plucked the city telephone wires and disrupting telephone and U.S. signal corps communications.

One concrete apartment house was carried across a street. Mr. and Mrs. Hugo Peterson's daughter Lillian, was rescued. Mrs. Fred Mattson, a resident of the same apartment house was missing.

POWER SHOVEL USED

Before power was restored and lights turned on, fire department trucks and automobiles directed their headlights on the ruins while men hacked at the slide. City and federal agencies, united, and more men poured to the scene. A power shovel was moved up and bit into the mass.

The slide fanned out near its terminus and stopped just short of the Juneau cold storage warehouse,

Maritime Strike In U.S. Extended

With Ships at Pacific Ports Idle, Officers Hear Call to Quit at Atlantic and Other Harbors

Associated Press

San Francisco, Nov. 23.—The maritime strike tightened around the United States today, with unions representing ship officers calling a walkout for noon at all American ports. Officials here of two American Federation of Labor Unions, the Masters' Mates' and Pilots' Association and the Marine Engineers' Beneficial Association, said it was the first time to their knowledge that a nation-wide maritime strike has been called.

Assistant Secretary of Labor Edward F. McGrady, meanwhile, pressed efforts here to settle the far-flung waterfront disputes and their attendant conflicts.

FOOD FOR ALASKA

Col. O. F. Olson, manager of the Government-owned Alaska Railroad, discussed with McGrady plans for proposed chartering of ships to send food north. Plans of Governor James B. Poindexter of Hawaii for aid were also being considered by federal agencies.

APPEAL FOR PRAYERS
The San Francisco Church Federation appealed for "private and public prayers" for industrial peace.

The nation-wide strike call, issued at New York Saturday by William S. Brown, national president of the engine-room officers, and James DeLaney, national president of the deck officers, officially extended the scope of the Pacific Coast general maritime strike.

OUT SINCE OCTOBER 29

Seven unions, including the marine engineers and the masters, mates and pilots, have been on strike on the west coast since October 29—principally in support of demands for control of hiring.

All of the seven unions except the Sailors' Union of the Pacific, whose charter was revoked some months ago by the International Seamen's Union, are members of the American Federation of Labor.

In issuing the strike call from New York, the national heads of the deck and engine-room officers' unions said it was independent of the rank-and-file walkouts of seamen on east and Gulf of Mexico coasts.

Ruling Awaited On Bennett Acts

Privy Council in London Reserves Judgment on the Validity of Three Measures

By THOMAS T. CHAMPION
Canadian Press Staff Writer
London, Nov. 23.—Judgment was reserved today by the Judicial Committee of the Privy Council here on an appeal brought to determine whether three social measures passed near the end of the Bennett government's term were ultra vires of the Parliament of Canada.

The measures are the Weekly Day of Rest in Industrial Undertakings Act, the Minimum Wages Act and the Limitation of Hours of Work Act. In the course of today's arguments, Lord Atkin, a member of the Privy Council, said there was no doubt Canada was a juristic person in international law, although her position as such required examination. She could make treaties in a large sense, but the question might arise whether in Canada by reason of its written constitution the executive

power of making treaties could be exercised except in the name of the Crown. The attribution of the three acts in question to the Versailles Treaty and Canada's supposed ratification of draft labor conventions which succeeded the treaty required people to make this distinction. The nature of the legislation must first be considered to ascertain if it came in the class which the constitution and civil rights, which were the affair of the provinces.

J. W. deB. Farris, for British Columbia, acquiesced when Lord Macmillan, another Privy Councillor, said: "You formulate such general proposition as this: Neither the Dominion nor the provincial executive can by its own action, diplomatic or otherwise, extend the legislative power of the Dominion or the provinces."

mitted full guilt and his plea for leniency declared: "I have not concealed anything... I showed you led me down this road... I openly showed it wasn't myself who took the road to wreck."

ENGINEER CONDEMNED
Besides sticking the men who face death before a firing squad are I. Psemekhonoff, chief engineer of the mine; I. Noskoff, P. Shubin, M. Kur-off, I. Lianshenko, V. Andrieff, I. Kolvenko and N. Leonenko, who admitted partial guilt.

GERMAN WARNING
Berlin, Nov. 23.—Germany's "entire power stands behind every German abroad," the authoritative newspaper Volkischer Beobachter warned today.

The newspaper stressed the necessity for the "utmost vigilance" to Russia against executing E. Sticking, German engineer convicted of sabotage at Novosibirsk, Western Siberia. "The Moscow peace disturbers have their last opportunity to shy from the monstrosity of their activities," the newspaper declared in support of its contention "Moscow wishes a world conflagration."

The Beobachter, which reflects the opinions of Chancellor Hitler, asserted the recent Italo-German accord "gave Moscow the last impulse to venture the biggest stake in its bloody game."

URGE DIPLOMATIC ACTION
Other German newspapers followed the same line of comment, urging strong diplomatic action to halt the scheduled execution of Sticking.

Germany's first concern was to make sure the condemned engineer would not be shot immediately, a Foreign Office spokesman said. This was the reason for the diplomatic representation lodged at Moscow yesterday, he declared.

Friedrich von Schulenburg, German ambassador to Russia, was declared to have "emphasized" to the Moscow government that the "charges against Sticking bear the earmarks of incredibility."

Fireman Swallows Piece of Plaster
Associated Press
Seattle, Nov. 23.—Fireman A. J. Echols choked when a piece of plaster fell into his throat while he was fighting an \$8,000 apartment house blaze today. Other firemen said they pushed it down his throat and he was revived in time to help extinguish the fire.

Fifty residents fled to the street in night attire. The fire, starting from a garbage can locker, virtually destroyed every bathroom in the house, via a ventilator chute. The \$85,000 apartment house is owned by John Reese of New South Wales.

Northern China's Defence Stiffens

Nanking Sends Ten Divisions and Fifty Planes to Stop Invasion; Japanese Planes Sighted

Associated Press
Kweisui, Suiyuan Province, China, Nov. 23.—Suiyuan defenders, drawn up along the border to repel a threatened invasion from Chahar province, were reported strengthened today by national government troops from Shansi.

Nanking is sending assistance to the extent of ten divisions of infantry and fifty airplanes, Chinese sources reported.

(The report was confirmed by an official spokesman at the capital who said "The present policy is one of defence in which the Suiyuanese will hold the front line with the moral and material support of Nanking. But in the event of an emergency, the central government's forces will enter into action without hesitation.")

PLANES SIGHTED
Advices from Pailingmiao declared Japanese fighting planes were circling over the northern Suiyuan frontier.

Chinese authorities, including Gen. Fu Tso-yi, Suiyuan governor, declared the threatened invasion was an attempt to extend Japanese influence westward from Manchukuo, an autonomous state sponsored by the Tokio government.

FLIERS ATTACK VILLAGES
Peiping, Nov. 23 (Associated Press).—Seventeen fighting planes, operating from a base in Chahar province, attacked villages near Hsingho, killing an undetermined number of Suiyuanese, Chinese sources reported today.

Irregular Mongol cavalrymen also were declared to have thrust toward Hsingho, forty miles west of Kalgan.

TO USE ALL RESOURCES
Nanking, Nov. 23.—"The national Chinese government is 'determined to resist to the utmost of its resources any invasion of Suiyuan province,'" an official spokesman said today.

He confirmed reports from Kweisui that government troops were being sent to strengthen the Suiyuan provincial forces.

At Peiping yesterday Japanese military officials said Chahar troops had killed or wounded 1,000 Suiyuan soldiers in an engagement near Taolin.

The Chahar troops marching westward from Shangtu suffered casualties of 300 killed or wounded, the military here asserted.

A second column of the Chahar army drove southwestward into Suiyuan province with Taining and Hopia as its objectives and cut the Peiping-Suiyuan railway line, it was stated here.

Chinese sources contradicted these reports and insisted the north China war zone was quiet at the moment.

Brown Resignation Lends New Outlook To City Elections
(Continued From Page 1)

Members of the City Council expressed regret today over the impending loss of Alderman Brown. Chairman of the finance committee for years, the alderman has piloted the city's budget through several stormy sessions and has been a leading figure in matters of civic finance.

During the regime of ex-Mayor Carl Penderay as well as that of Mayor Leeming he has held the office of acting mayor.

Id the general aldermanic field, Harold O. Simpson, 1622 Camosun Street, made his entry today, while "Victor King, reported to be a potential candidate, declared he would not be in the contest.

Entry of Mr. Simpson raised the number of definite candidates for the five two-year aldermanic seats or the one year term to nine, with only two of the five aldermen whose terms expire this year having announced their intentions.

ALREADY ENTERED
Alderman Walter Luney, Alderman James Adam, John Day, Alec Peden, John Worthington, Mrs. Alice McGregor, W. Lloyd Morgan and John Neary are already in the field.

Mr. Simpson, an ex-service man, has lived in Victoria for the last eighteen years and has been a taxpayer for the last ten.

"As I conceive it, the principal duty of an alderman is to supervise the spending of the taxpayers' money in a wise way and if the voters of Victoria place their confidence in me, I will do everything in my power to see that this is carried out," Mr. Simpson said.

While the entry of the large field in the council race promised a heated campaign, Mayor Leeming so far stands alone for the mayoralty.

Van Sweringen Called By Death

Oris P., Brother of Late Mantis, Dies on Train in New Jers

Associated Press
Cleveland, Nov. 23.—Oris P. Van Sweringen, who with his brother, the late Mantis J., built a towering railroad empire out of a small real estate venture in Cleveland, died today aboard a Nickel Plate train en route to New York, aged fifty-seven.

Joseph Doherty, public relations counsel for the Van Sweringen interests, said two men who accompanied Van Sweringen claimed a minor accident in which a Delaware, Lackawanna and Western train was involved at the Scranton, Pa. yards probably had contributed to a heart attack.

The magnate's companions were Herbert C. Fitzpatrick, vice-president of the Chesapeake & Ohio and Nickel Plate Railroads, and W. H. Wenne-man, Van Sweringen's secretary.

"An engine switching a diner collided with the train at Scranton," Doherty said. "Nobody thought seriously of it at the time. The sill of a centre window in Van Sweringen's car was broken by the impact."

His brother died December 12, 1935, after a short illness.

LIVED QUIETLY
Always retiring, Mr. Van Sweringen had lived quietly at his large estate outside Cleveland. He avoided the public, but appeared regularly at his offices in the Union Terminal, which he and his brother built on Cleveland's public square.

At its peak the railroad empire controlled by the two Van Sweringen brothers had 19,000 miles of track and assets of \$2,000,000,000.

Resourceful in adversity as they were in their meteoric rise, the brothers recovered key securities in their properties at an unprecedented auction block sale by the house of Morgan, which had lent millions to the Van Sweringens.

Sentences After Narcotic Trials
In Vancouver Mr. Justice Manson Orders Terms and Lashes

Canadian Press
Vancouver, Nov. 23.—Sentences totaling more than sixty-four years' imprisonment, \$2,800 in fines and fifteen lashes were imposed by Mr. Justice A. M. Manson in the assize court here today.

Six men and two women, all convicted on narcotic charges, received sentences ranging from fourteen years, \$500 fines and five lashes to two years' imprisonment.

Three other men and a woman were also sentenced at conclusion of the Vancouver fall assizes.

The sentences were: Joe Ferraro, forty-one, conspiracy to distribute morphine—seven years, concurrent with first sentence, \$500 fine or six months, and five lashes.

Mike Punak, twenty-three, selling forbidden drugs—seven years, \$500 fine or six months, and five lashes.

Shinichiro Hukida, Oriental, thirty-five, conspiracy to distribute morphine—seven years. Possession of narcotic drugs, seven years concurrent and \$500 fine, and five lashes.

Kazuo Yoshida, Oriental, thirty-five, conspiracy to distribute morphine—three years. Possession of narcotic drugs, three years concurrent and \$500 fine or two months.

Tadayoshi Burmote, Japanese, thirty-six, conspiracy to distribute morphine—three years. Possession of narcotic drugs, three years concurrent and \$200 fine or two months.

Patrick Canning, forty-one, conspiracy to distribute morphine—seven years and \$500 fine or six months.

Winifred Chapman, twenty-seven, possession of narcotic drugs—two years and \$200 fine or two months.

Vancouver Woman Hit-run Car Victim

Alaska Moose Enter New Fields

Associated Press
Juneau, Alaska, Nov. 23.—Game commission officials today sought an answer to the puzzling migrations of moose, all over the territory, into country never before frequented.

Frank Dufresne, executive officer, said six had been killed within twenty miles of the Arctic coast, hitherto barren of moose, and that Hardy Trefzgar, an "oldtimer" in the Yakutat region, reported appearance of moose on the Yakutat peninsula, hitherto barren of all wild life.

Shells Fall In Madrid Centre

(Continued From Page 1)

Windows in the War Ministry, headquarters of the Emergency Defence Council, were shattered when one bomb fell in the patio of the building. Two automobiles standing in the courtyard were wrecked.

Several other bombs fell in the central district in the renewal of air attacks which had been suspended for three days.

FIGHT RENEWED
At the same time government and insurgent troops clashed in renewed fighting in Madrid's northwestern University City.

Strong forces of international volunteers resisted a Fascist bombardment on the battered Casa de Velasquez, a university dormitory which has been wrecked by continual insurgent shell-fire.

"DECLARATION OF WAR"
The government asserted in its official organ Italian and German recognition of Gen. Francisco Franco's insurgent administration constituted "a declaration of war."

A statement published in the Juventud named Germany, Italy and Portugal, although the Berlin and Rome governments are the only European administrations which have declared formal recognition of the Burgos regime.

Guatemala and San Salvador, two small nations in Central America, also have recognized Gen. Franco's Fascist junta.

THRONOS IN NEUTRAL ZONE
Gen. Jose Milla, leader of the city's defenders, ordered speeding up of evacuation of civilian residents from the shell-torn western section. Long lines of refugees hurried from the besieged districts into the Salamanca "neutral" zone in the northeastern section.

Both sides launched isolated attacks in two sectors in Madrid's suburbs with only minor success.

Socialist convoys were moving freely along the threatened highway to El Escorial. Skirmishes were reported in the area around Guadalajara.

Among the international volunteers was Edmund Romilly, eight-year-old nephew of Winston Churchill, veteran British statesman.

THOUSANDS TO MOVE
The bombardment interrupted the wholesale evacuation of women, children and old men to eastern sections of Spain. Between 300,000 and 450,000 persons, under defence plans, are to be evacuated.

FLEET ORGANIZED
News of the recent naval attack coincided with a government declaration at Barcelona that the loyal war fleet was being reorganized and that new officers were being trained to fight an "illegal blockade."

Barcelona sources said Fascist warships were patrolling the coast from Cape Cruz, easternmost mainland point, to Barcelona, and near Alicante, Cartagena and Ceuta, Morocco.

FOREIGN SUBMARINES APPEAR
Canadian Press from Havas
Madrid, Nov. 23.—Announcement was made today that submarines had entered Cartagena Harbor and attacked two government warships started Madrid today. The air and navy ministries charged the submarines, believed part of a "foreign fleet," had attacked the governmental cruiser Miguel de Cervantes and the cruiser Mendez Nunez early yesterday.

The official communique issued late last night said several submarines, "which we believe are part of a foreign fleet," attacked government ships at the entrance of Cartagena Harbor.

CRUISER DAMAGED
One torpedo hit the cruiser Miguel de Cervantes, causing damage. Other torpedoes launched by another submarine at the cruiser Mendez Nunez were wild.

The Miguel de Cervantes was launched in May, 1928, and carries eight six-inch guns as well as other smaller ordnance. The Mendez Nunez has a 4,725-ton displacement and is thirteen years old.

Cartagena is one of the principal government bases on the Mediterranean seaboard.

Associated Press
Saint Jean de Luz, France, Nov. 23.—Driving government offensive along the Biscayan front threatened recapture of Tolosa and San Sebastian, insurgent strongholds in the north of Spain, government reports said today.

Advancing rapidly, the reports said, an army equipped with tanks and aircraft conquered important positions near the highway connecting Vittoria with the two Fascist cities and menaced the insurgent main line of communications.

The northern government army was said to be concentrating its forces in Villafranca for the push on Tolosa, only a few miles to the north.

How the two blasts disabled the cruiser was related in a terse wireless message from the British destroyer Glowworm.

The Glowworm, cruising off the southeastern Spanish port, reported the Cervantes listed suddenly and then was towed into port.

OLD-TIME RANCHER DIES

High River, Alta., Nov. 23 (Canadian Press).—J. H. Brown, one of the oldest of Alberta's pioneer ranchers, died at his ranch in the Pekisko hills, forty-five miles southwest of here, yesterday. Operator of spacious rangelands in the foothills, he was better known as "70" Brown, the name of his brand and ranch. He was about eighty-three years of age and came from British Columbia in 1883. Two sisters who lived with him on the ranch survive him.

PROFIT BRINGS CHANGE

Montesano, Wash., Nov. 23 (Associated Press).—A year ago Dr. James H. Benedict of Hoquiam complained against a man who had sold him virtually worthless stocks for \$968. Prosecutor Paul O. Manley filed a grand larceny charge, but now he has asked for dismissal of it. The stocks have risen in value, giving Dr. Benedict a \$700 profit.

AUTO FATALITY

Olympia, Wash., Nov. 23 (Associated Press).—One man was killed and six injured in a collision at a street intersection yesterday between a fire truck and an automobile driven by Dwight Newell, about twenty. Sylvester Smith, seventy-nine, a passenger in Newell's car, died an hour after the accident.

NARROW ESCAPE

Saskatoon, Nov. 23 (Canadian Press).—Alice Holmes today showed only a couple of bruises as result of a forty-foot fall down a work chute in a block here Saturday. She hopes to be dismissed from hospital today and return to her domestic position in Prince Albert.

CHIEF OF CLAN MACLEAN DIES

Sir Fitzroy D. Maclean Passes Away on Scottish Island at 101 Years

Canadian Press
Isle of Mull, Nov. 23.—Sir Fitzroy Donald Maclean, Scotland's oldest clan chief who in 1932 buried the hatchet with the Macleans' ancient rivals, the Campbells, died yesterday evening in historic Duart Castle. He was 101 years old.

The ancient feud between the clan Maclean and the clan Campbell was said to have originated over the love of a woman in 1746, and to have been carried down the years until both sides called it off in 1932.

On Sir Fitzroy's 100th birthday he received messages from many of the 50,000 Macleans scattered throughout the world.

The clan Gillean, or Maclean, was founded in the thirteenth century by Gillesann Tuishe or "Gilleann or Battle-axe," whose massive strength and feats of arms made him famous on the Isle of Mull and the mainland.

Sir Fitzroy, the twenty-sixth hereditary chief of the clan, had been continued to his bed for the past two years.

From 1896 to 1899 he served in Canada with the Thirtieth Hussars, a regiment he joined in 1892 at the age of seventeen and commanded in 1871.

During the Crimean War he was with the Thirtieth Light Dragoons, and was present at the cavalry affair at Buljanak, the Battle of the Alma and the long, drawn-out siege of Sebastopol.

He was wounded severely at Alma and Sebastopol. He was born May 18, 1835, and in 1883 succeeded his father in the clan leadership and the baronetcy created in 1831.

The new head of the Macleans is his grandson, twenty-year-old Charles Hector Fitzroy Maclean, eldest surviving son of the late Hector F. Maclean.

Duart Castle was once the scene of fierce fighting in the days of "Bonnie Prince" Charlie. It was finally captured and destroyed, but was rebuilt by Sir Fitzroy at a cost of \$500,000.

Tank in Spanish Battle

A struggle in which loyalist infantry was pitted against an insurgent tank on a section of the front near Madrid was starting when the above picture was taken. With rifles ready, the soldiers, shielded by a raised roadway, waited for the tank to rumble down the hill and approach their position.

M.P.'s To Debate Inquiry Reports

Textile Investigation Covers Much Ground; Prison and Grain Marketing Inquiries; Session at Ottawa to Open Jan. 7 Or 14

Canadian Press
Ottawa, Nov. 23.—Interesting legislative developments are expected at the forthcoming session of Parliament, even if the session is to be shorter than usual because of the Coronation and Imperial Conference in May.

A debate of Canada's defence policy is believed certain and there will be important decisions to be taken arising from the several public inquiries now being conducted.

Investigation of the textile industry, under way for some months, is proceeding with the commission now sitting in Ottawa, while the Royal Commission on penitentiaries is in the midst of an inquiry which will extend throughout Canada, parts of the United States and possibly to England.

GRAIN MARKETING
As soon as Mr. Justice W. F. A. Tupper of Regina concludes his task as commissioner heading the textile inquiry, he will continue in the same capacity on the grain marketing investigation, and on his report covering that problem will probably depend the government's future policy with respect to operations of the Canadian Grain Board.

That body's activities have been largely curtailed because of the government's decision not to impose a minimum price on wheat unless it drops to a certain figure on the open market. For months the price has been well above the minimum of 87½ cents a bushel based on No. 1 Northern at Fort William. Should the price drop to that level the policy of board buying at that guaranteed minimum would become automatically effective.

PRISON INQUIRY
Completion of the textile inquiry will also relieve J. C. McRuer, K.C., counsel to the textile commission, for his duties as member of the Royal Commission on penitentiaries. Thus far the chairman of that commission, Mr. Justice Joseph Archambault of the Quebec Superior Court, and R. W. Craig, K.C., Winnipeg, have been carrying on their inquiries without the services of their third member.

FARM MACHINERY
Another inquiry of far-reaching importance to be continued as soon as Parliament meets is that dealing with the price of farm machinery. It was opened at the last session by a House of Commons committee under the chairmanship of Mr. W. G. Weir, Liberal member for the Manitoba riding of Macdonald, but its work was uncompleted at the end of the session.

Investigation into the marketing in Canada of anthracite coal has been concluded by Dr. H. M. Tory, former head of the National Research Council, sitting as a commissioner. His report will not be ready for another fortnight at least.

CHOICE OF DATE
While the government has little control over the length of a session, or, in any event, would hesitate to attempt any such control, it can and does fix the date Parliament meets. With the virtual certainty that January 7 or 14 will be the date chosen, it is likely Prime Minister King will reach a decision at one of the cabinet meetings scheduled this week.

Baron Joicey Is Called By Death

Canadian Press
London, Nov. 23.—Baron Joicey, ninety, who rose from office boy to be one of the largest coal owners in the United Kingdom and one of the biggest employers of labor in the world, died Saturday at Crookham, Northumberland.

He made no secret of his belief "the politicians let us down badly." Once he said a dictator who could keep a firm hand on the politicians "as Mussolini has done, would be a saviour to this land."

When raised to the peerage in 1906 he made no effort to find a territorial title. "Joicey is my name and it will be no better or worse for putting a title before it," he declared.

Two coalminers' picks and two pit ponies were the foremost items in Lord Joicey's coat-of-arms.

Tuberculosis, the great plague among Alaskan Indians, takes a death toll of 658 per 100,000 a year, in contrast with 56 per 100,000 among whites.

Injured Man Killed By Auto

Speeding New Jersey Car Hits Citizen Being Carried on Stretcher

Associated Press
Bayonne, N.J., Nov. 23.—Joseph Paurce, forty-four, was hurled to death early yesterday when an automobile crashed into the stretcher on which he was being carried after another car had hit him. The four stretcher-bearers were injured.

The car which ploughed through the stretcher party stopped after crashing into an ambulance. Police rescued the driver and hurried him off as the crowd at the scene became menacing.

Booked as Peter Jackson, twenty-six, a Jersey City negro, he was convicted of drunken driving, sentenced to ninety days in jail and fined \$500. He was also held in \$5,000 bail on a charge of manslaughter.

Dr. Francis Boyle, Bayonne hospital ambulance surgeon who was tossed twenty feet, estimated Paurce had been knocked fifty to seventy-five feet through the air.

Boulevard police said the car which first hit Paurce was driven by Carl C. Bernstengel, twenty-six, of North Bergen. He was held in \$1,000 bail on manslaughter charge pending determination of the responsibility for Paurce's death.

ANTI-SEMITISM DENOUNCED
Toronto, Nov. 23 (Canadian Press).—Recommendation of the Dominion Council of the Canadian Jewish Congress co-operate more closely with B'nai B'rith against anti-semitism in Canada was contained in a resolution passed yesterday by the central division of the Jewish congress. Other resolutions protest against German and Polish governmental activities against Jews and support the Zionist movement for a national home in Palestine.

EXPLOSION CAUSES DEATH
Grandfield, Okla., Nov. 23 (Associated Press).—Dennis Hurson, escaped convict, died here Saturday. He was injured in an automobile accident. Later he returned to the scene of the wreck, struck a match to light his hat and was burned to death in a gasoline explosion.

Australia Stages Reservoir Event

New Hume Lake Is Put Into Service; Irrigation For Big Area

Canadian Press
New York, Nov. 23.—A Cable to The New York Times today from Melbourne, Australia, described the opening by the Governor-General, Lord Gowrie, of Hume Reservoir, eight largest project of its kind in the world.

The reservoir, which took seventeen years to build, is situated near the junction of the Murray and Mitta Mitta rivers, at a point where the explorers Hume and Howell crossed the Murray River in 1824.

releasing a huge volume of water through valves in a dam that is the keystone of a vast irrigation scheme fashioned by New South Wales, Victoria and South Australia with Commonwealth aid.

LARGE BODY OF WATER
The reservoir covers 33,000 acres and forms a body of water three times as large as Sydney Harbor. It will insure the productivity of hundreds of thousands of acres in which drought has heretofore killed many millions of sheep. The effects of drought will be minimized, safety assured to fruit-growing districts, such as Mildura and Renmark, and the growth of fodder stimulated by periodical floodings.

Within the next few years nearly 23,000,000 (\$15,000,000) will be spent to use the water for increases in fruit growing, dairying and fat lamb production. The water is also to be used for electric power.

VAST PARADES MARK FUNERAL

French Leftists Demonstrate As Premier Blum Speaks at Burial of Salengro

Associated Press
Lille, France, Nov. 23.—Thousands of French leftists demonstrated throughout France yesterday as Premier Blum in funeral eulogy pledged himself to end the slander he said killed Roger Salengro, Minister of the Interior.

Hundreds of thousands of Socialists, Communists and other supporters of the Popular Front government paraded streets in Paris and elsewhere to manifest sympathy for the minister, who committed suicide after repeated charges he was a war-time deserter. He was cleared of the allegation by a court of honor.

"He was the victim of atrocious, infamous calumny," Premier Blum declared at the funeral here in an oration broadcast to demonstrators in other cities.

"An end must and shall be put to slander in this country."

He made plain he accused no political parties but "clans, bands, men and newspapers who seek by this means to strike at institutions and the republican regime."

LONG LINES OF PEOPLE
The parades here, estimated at 125,000, carried black-bordered red flags and sang the Internationale. Many raised their arms in the Communist clenched fist salute.

The Paris marchers were estimated at more than 100,000 and carried signs, "Down with Fascism," and "Vengeance for the death of Salengro."

The Socialist printers' syndicate carried huge copies of the weekly Gringoire splashed with biots of red ink. The Gringoire was accused of leading attacks against Salengro.

Motor Equipment For Army Units

Canadian Press
Toronto, Nov. 23.—The Canadian Cavalry Association, meeting here for the twenty-first annual meeting, had for consideration today a resolution urging motor equipment be purchased for regular army units.

The resolution, sponsored by a western delegation headed by Major C. A. Lyndon of Edmonton, urges the purchase for educational purposes.

Another move listed for consideration by the association concerns adoption of armored car regiments to membership in the Cavalry Association on an equal status with cavalry units.

Cavalrymen were represented as feeling cavalry is cavalry whether mounted on old-fashioned horses or new-fangled automobiles.

Delegates were entertained at tea yesterday by the Royal Canadian Dragoons at Stanley Barracks.

What a Tragedy!

NEWS FROM SPAIN CONTINUES
to be of a very conflicting character. The only salient fact which has penetrated one of the strictest censorships of modern times is that the rebels under General Franco have not captured Madrid. The tragedy, of course, is that by the time the enemies of the people, with Nazi and Fascist assistance, have set themselves up in the capital, there will be very little left of once proud Madrid. The historic city with its Bourbon tradition is being reduced to a shambles.

But what is to become of Spain if General Franco shall impose his will upon a people who have had enough of Bourbon tyranny? Does he imagine that he will calmly take control and settle down into a quiet life of rule? If he thinks so, he may get a rude awakening.

What seems to have been forgotten is that Spain is young at the job of throwing off the yoke of reactionary repression. Great Britain, of course, learned how to do it centuries ago—and has been improving the formula ever since the passage of the Reform Act of 1832. Reformers to help the lot of the ordinary people take a long time to put into practical operation. During their "swaddling clothes" period many defects develop.

The government elected by a majority of the people in Spain last February may not have measured up to the desire of all the thinking populace. But what is a few months in the life of a nation?

In any case, the cause of the republican government of Spain—and it is that government's business—is based on a genuine desire to do something better for the people than has been done before. This, surely, is an honest aspiration.

Worthy Contest

OUR MIND IS BEMUSED TODAY
by the fact that a middlewestern paper is holding a great pumpkin pie contest, open to all housewives in the city, and is offering \$100 for the best pie.

This looks to us like a very great public service. For pump-in pie, rightly made, is one of the greatest blessings available to sinful mortals. The only trouble is that so many cooks do not seem to understand how to make it.

Some of them do it with so much ginger and other spices that the flavor of the pumpkin is lost. Others go to the opposite extreme and produce a pie that is flat and insipid.

Some produce pies of a repellent mud color; others make pitifully wan and pale pies; some heap whipped cream off top.

The pumpkin pie, in short, needs rescuing. If a newspaper really can help, with a prize contest, more power to it!

Sanity May Prevail

AN EXPERIENCED COMMENTATOR on world affairs said recently that there will be no general European conflagration because the nations can not afford to stage another world war. He is right.

It would be a world war, of course, if Europe got tangled up again as she did in 1914. Not even the valuable United States radio "expert" on international affairs who said last night that the neighboring republic would have nothing to do with another European war can say that his country would be able to hold itself aloof.

We seem to recall that Woodrow Wilson was re-elected in 1916 because he kept the United States out of the war. In the spring of 1917 the war had drawn the United States in—Woodrow Wilson and his pledge notwithstanding—figuratively up to its neck.

Then, mark you, the progress of science in the diabolical business of contriving ways and means of killing human beings and dissipating treasure had been slow. Picture the scene of, say, 1937, with the nations of the world at one another's throats.

Those who think that to prepare for war is to insure peace might well sit back in their arm chairs o' nights and let their imagination run riot. If the intelligent brow should display the sweat of apprehension it will be a sign that sanity reigns behind the working mind.

The simple truth is that another war would, vulgarly speaking, "bust" us all.

SOMEONE OUGHT TO GET UP A
tasteful little memorial of some kind for the school teachers of Hartford, Conn., who rose up in their feminine wrath the other day and refused to sign a handful of questionnaires which had been handed to them. They deserve a memorial because this questionnaire habit is getting to be one of our major nuisances.

Students trailing Ph.D. degrees, advertising counsellors trying to find out if the man in the street prefers red or pink cellophane on his potato chips, public information services eager to learn the prevalence of "pink toothbrush" among blue-eyed orphans—a whole legion of these inquisitive folk have the questionnaire habit, and it is an obscure person indeed who is not, sooner or later, asked to answer a lot of

personal questions for the benefit of some total stranger.

This Hartford questionnaire was passed out by a research unit making a survey of the cost of living among school teachers. That maybe a worthy cause. But the unsuspecting school teachers found themselves called on to answer a long string of questions, such as:

How much did they spend in the last year on food? On housing? On clothing? On taxes? On health, transportation, gifts, luxuries, insurance, financial aid to dependents, furniture, laundry, beauty shops, toothpaste, postage, and domestic service. Were they (a) single, living away from home; (b) single, living away from home; (c) married, living with husband and maintaining a home; or (d) married, living with husband, but living as a family group with near relatives?

All this was just a little too much for the ladies. One young woman looked at the questionnaire and exploded with a "What! No fingerprints?" Others spoke of regimentation, invasion of privacy, and the unmitigated nerve of some people. The upshot was that the takers of the questionnaire had very bad luck indeed with the school teachers.

Now it may be pointed out, of course, that it can be important for the authorities to know what the cost of living among school teachers really is. It can be argued that, by furnishing the desired information, the teachers might well have drawn nearer to a pay increase.

Illuminating the City

SEVERAL WEEKS AGO THE JUNIOR Chamber of Commerce accepted the invitation of the committee arranging the programme for Victoria's Seventy-fifth Birthday to color-light the city.

The young business men under President Thomas Watkins were asked to have one block—Yates Street, between Douglas and Blanshard—illuminated before Christmas so that it might be used for sales talks throughout the rest of the business area.

So aggressive have the young men been in their undertaking that there will not be one block to brighten the Christmas shopping, but probably eight or nine. They hope to have Douglas Street from the Hudson's Bay Company to the Strathcona Hotel illuminated by strings of colored lights stretching across the street. Merchants in two blocks on Broad Street between Fort and Yates have accepted the plan.

Although the lights are being installed primarily for use in the Diamond Jubilee Celebrations, they will be permanent and will be used on special occasions. The first test will be made during the Christmas shopping period, but it is the hope of the Junior Chamber of Commerce to have most of the business area decorated in time for the Coronation of King Edward.

The splendid manner in which the merchants have endorsed this undertaking is worthy of commendation. They are showing the real community spirit which will be required if our Diamond Jubilee Birthday celebrations are to be an inspiring success.

Doctored News

DISCERNING READERS KNOW
that much of the news from abroad is adulterated by censorship and propaganda. Of course, it would be a real deprivation if they stopped receiving such news. Doctored news is better than no information at all, once you learn to read between the lines.

This is the substance of a recent speech by Mr. Henry Hablitt, the noted author. It explains why all newspaper readers should carefully and analytically study news from abroad.

If their emotions are stirred one way or another by dispatches from the other side, whether it be Rome, Moscow or Madrid, they should first consider whether the news is unduly favorable to Spanish loyalists or rebels, Italy's Fascists or Russia's Communists. If so, they should accept it with a heaping tablespoon of salt.

Notes

Another indicator of good times: "Keep the change."

We often wonder whether hotels are becoming more home-like or homes are becoming more hotel-like.

Strange it is that peoples generally do not need protection against foreign enemies until they get a dictator.

This is the season when a woman appreciates any doo-dad, even if she does not like it. She can always save it to use as a Christmas gift.

No wonder so many voters in the United States thought Republicans could not manage the country. Look at the way they managed their campaign.

Japan is the perfect totalitarian state. Workers there produce goods they are too poor to buy, thus making it possible to win world markets to enrich the few at the top.

Dispatches from Washington indicate that the wealthy gentlemen, such as the Duponts and the soured Al. Smith, who formed and nurtured the American Liberty League, are wondering whether they might not be well-advised to let the League go quietly to sleep, as Father Coughlin did with his National Union for Social Justice. If the Liberty League succeeded in anything in the recent campaign, it succeeded in making votes for President Roosevelt. Is it any wonder that its backers are pondering over the virtue of a dreamless sleep?

Loose Ends

The newspapers miss a real oration—Mr. Haycock has a sound notion — the public doesn't appreciate us — and they go philanthropic next door.

By BRUCE HUTCHISON

SOFT SEATS

REPRESENTATIVE W. F. HAYCOCK, of the Nebraska Legislature, has lately proposed that the seats be removed from that legislative chamber to promote short sessions devoted entirely to business. Soft seats, coaxing legislators to linger over their work, are what hold up public affairs, says Mr. Haycock.

He must have been thinking of the British Columbia Legislature, wherein I have been imprisoned for some weeks. The seats of the British Columbia Legislature are infinitely luxurious, by far the most comfortable seats ever invented. The man who designed them must have been a legislator himself, one who knew yet softly by leather of leaning back, held firmly yet softly by leather arms, balanced delicately by a spring swivel, and allowing your senses to be wooed to pleasant repose by the dulcet voice of the Opposition.

I have no doubt that the sessions of the Legislature could be cut in half if the seats were hard and stiff, like those of the less fortunate parliamentarians of Ottawa. If only hard kitchen chairs were provided, I dare say you could complete a session of the Legislature in a week, but under the present seating arrangements a man must hate to go home to the hardship of the ordinary household.

Between sittings of the House I have often sat back in an eminent legislator's chair and listened to other eminent legislators talk privately and I have felt stealing over me an unearthing calm, a superb sense of well-being, as if I were under the influence of some benign and powerful drug, and so perfect was my repose that even the voices of eminent statesmen ceased to jar on the nerves.

I would gladly commit theft to acquire one of those splendid chairs. Nay, sometimes, in moments of desperation, I have even considered running for the Legislature solely for this purpose, and those chairs, as I see the complacent looks of perfect ease and comfort that they inspire in politicians who have little other pleasure in life, are still a temptation to me.

If a politician could live all his life in the Legislature, thus cradled in gentle upholstery, lulled to sleep by the faint purr of the Opposition and the lulling song of the treasury benches, then, indeed, the best brains of the country would be attracted to politics. Alas, the politician stays there only a few weeks. A hard chair and a hard electorate are his portion during the rest of the year. For an electorate in its present humor there is no compensation.

SLAVES

SPEAKING OF WHICH, I dare say you didn't appreciate the toil and misery which we, over in the press gallery, underwent to bring you home the priceless pearls of wisdom scattered daily in those premises. Day after day, hanging between earth and heaven in a gallery no more comfortable and much more dangerous than a flying trapeze, grilling like a lamb chop when the ventilator system wasn't working, frozen stiff when it was, simply to bring to you, most fortunate voter, the distilled essence, the ultimate tincture and refinement of your lawmakers' intellects. How fortunate are you to have public servants like us, how happy the Legislature to know that its speeches seldom reach the public in the exact words uttered, how satisfactory for you to get at last some original ideas in the newspapers, and particularly in this column. And now, alas, they are gone and you will have to listen to me.

THE POOR

THEY HAVE BEEN SAVING UP next door to help the poor at Christmas. It is a kind of Robin Hood business, for they outrageously held me up, wheedled me and embezzled me to help the poor. I don't know how often now I have paid them to take the leaves off the lawn, and the leaves are still there. After paying handsomely to get my Winter Bananas picked (I wouldn't trust them, you may be sure, with my priceless Northern Spies), the Winter Bananas are still on the tree.

The fund for the poor, however, continues to swell. The last returns from the central bank (a cracked glass jar in the kitchen cupboard next door) showed a net balance of 43 cents and six tokens, with holes in the middle of them, which I got in Seattle the other day. With this growing fund, I understand, is planned to send comforters of various sorts to the settlers of the Peace River country, where, I am told, the snow is a mile deep and the people have no clothes on their backs and polar bears eat most of the children and the aged.

To help these unfortunate people through the winter, the little girl from next door already has knitted two little pink woolen purses and lined them with silk, but what the penniless settlers will put in the purses no one has yet explained.

"Well, you always feel better when you have a purse with you anyways," said their maker.

Her brother, foreseeing another vital need among the hardy pioneers, cut up all the old pieces of cloth he could find into jagged rags, washed them and ironed them himself.

"These hankies," said he, will certainly be nice when they get cold in their head."

Yet, despite all this charitable enthusiasm, we are beginning to worry a little over the great fund of 43 cents and six tokens. The little boy from next door has shown a suspicious determination to spend the money forthwith on comforts for the Peace River settlers and today he came over here with the suggestion that it might be a good idea if he went to town and started the relief of Peace River by purchasing an ice cream cone and some candies.

"I bet," said he, "that they'd like a nice cream comb and some candies. They never get them up there."

On hearing news of this threatened disaster, his sister immediately committed the 43 cents and six tokens to my care.

"If you let him," said she, "he'd run through the whole fund just like that, in a few weeks, and eat all the ice cream himself."

"Well," said he, with devastating sarcasm, "that would be better than your ally purses."

He strode off, whistling.

BENIGHTED HEATHEN

Pity the poor heathen of India. Because they think the cobra sacred, they let it kill as many people as automobiles do on this continent.

Letters to The Editor

CALGARY'S EX-EDITOR DAVIDSON ON SOCIAL CREDIT "VICTORY"

To the Editor:—Will you permit me to make a correction of the misleading Canadian Press report in last Thursday's paper of the municipal election in Calgary? That report says that "Social Credit headed the poll and gained a seat in Calgary City Council." Social Credit did not head the poll and although it did gain a seat in the council, that is not surprising as Calgary aldermen are elected for two-year terms and in the election in 1935 no Social Credit candidates were in the contest.

What happened in the Calgary election was that the Social Credit candidate for commissioner was defeated, and only two of the six aldermen elected are of that party.

Calgary uses the proportional representation system in the municipal and provincial elections. In the first count last Wednesday Freeze of the Civic Government and Taxpayers' Association (anti-Social Credit) had the largest number of first choices and sufficient to elect him at once. He headed the poll. Cunningham, another C.G.T.A. candidate, was second, and reached the quota and was elected on the second count. Gourlay, whom you may have heard the poll was not elected until a subsequent count. Altogether C.G.T.A. elected three members, Social Credit two and Labor one.

An even better test of the strength of Social Credit is to be found in the number of first choices, which shows:

C.G.T.A. 16,377
Social Credit 12,211
Labor 5,722

It is correct that the Social Credit Party took two of the four seats on the school board as you report, but the school board constituency, without separate school supporters, is not a complete record of Calgary voters.

The municipal election in Calgary comes into the news in British Columbia because that city is the birthplace of the Aberhart system of social credit. The real interest in the recent election is that it shows that even in this stronghold the support of the Aberhart government is slipping very perceptibly.

In the provincial election of 1935 Social Credit swept the city, carrying four of the six seats with about 60 per cent of the first choice votes. I regret I have not the exact vote at hand.

In the municipal election of 1935, held a few months later, Social Credit carried three of the seven seats—the constituency and method of voting being the same in both cases. In this case the party polled about 50 per cent of first choices.

In the election last Wednesday the party took but two of the six seats with only 35 per cent of the votes.

If that is happening in Calgary, the stronghold of the party, the home of the official paper, the centre of the organization, it is reasonable to suppose that a similar movement is already under way in other parts of the province. W. M. DAVIDSON, Uplands, Victoria.

THE PHEASANT SITUATION

To the Editor:—It would seem that the pheasant situation can stand still further discussion among the hunters interested in the game administration. The news article recently published explaining the fact that the \$12,000 invested in pheasants is contributed by the hunters via the license and received by the farmers with much benefit has only partly covered the question.

If anyone can tell me where I can legally hunt and shoot pheasants, having, of course, paid my \$3 license fee and so helped to provide them, I will be very grateful. As the matter stands, pheasants are practically found only on farms. All farms have notices reading as follows: "Hunting and trespassing forbidden." "Dogs shot on sight." "Poison laid for dogs." "No hunting, keep your dogs out." These signs and many more can be seen on a drive around Saanich or up in Is. If one saw a pheasant bush by the road, to flush the bird and shoot would be illegal as it is against the law to shoot on, across and in most cases within fifty yards of the road.

J. F. BLEDSOE IS PRESIDENT

Chosen Head of Victoria Lawn Bowling Club at Annual Meeting

J. F. Bledsoe was elected president of the Victoria Lawn Bowling Club at the annual meeting held last week. M. Smith was chosen honorary president. W. Childs was selected for the vice-presidency office and Major C. Baxandall was appointed secretary-treasurer.

The executive includes: H. A. Beckwith, F. W. Davey, J. Goldie, A. B. McNeill, D. Dewar, E. G. Mason, A. McKeechie, G. A. Marconini, C. A. Hislop and Capt. Cattroll. Messrs. Dewar, Davey, McNeill, Goldie and Childs were chosen representatives to the Greater Victoria Association, while delegates to the British Columbia Association are D. Dewar and J. A. Macdonald. F. R. Exham was named auditor.

It was announced at the meeting that the provincial association was making representations to have the Dominion championship events played on the coast next year.

It was noted that in open competition with other clubs this year, M. Mossey won the Greater Victoria singles crown, while T. Reinfrew and G. A. Marconini took honors in the premier doubles event of the district, for which they secured the Wilkerson Shield. The women's section captured the Butchart League Cup, and Mrs. Willey the island singles title.

J. W. HAMILTON IS PRESIDENT

Regina Elected Head of A.A.U.; New Plan For Empire Games Trials

Regina, Nov. 23.—Amateur Athletic Union of Canada barriers stood firmly against professionalism in sport today as delegates to the forty-ninth annual meeting here had departed with rejection proposals for amateur code relaxation the main business accomplished.

J. W. Hamilton, Regina, was elected to the presidency at the closing session Saturday to succeed W. A. Fry, Dunnville, Ont., and the union decided to hold its next meeting in Montreal with special public observations to be considered.

Chief action taken Saturday was

recommenation to the British Empire Games Association that Dominion track and field championships be dispensed with next year as an economy measure, and that trial for the games to be held in Australia in February, 1938, be staged in four zones, after which a representative committee would select a Canadian team.

The zones would group British Columbia and Alberta, Saskatchewan, Manitoba and Thunder Bay, Ontario and Quebec, and the Maritimes. The games association will take final action on the question.

Dr. Phil Edwards, Montreal middle-

distance runner and winner of the Norton H. Crow prize as Canada's outstanding amateur athlete, was nominated for the Lou E. Marsh Memorial Trophy to be awarded for outstanding achievement in either amateur or professional sport in the Dominion.

Recommendation of the British Columbia branch that a national governing body for track and field sports be formed, was rejected.

Gave Parties For Y.W.C.A. Funds

Mrs. W. B. George Was Hostess Friday And Saturday Evening

The funds of the Y.W.C.A. will be augmented by \$75 as the result of two charmingly arranged parties held at "Armstrong," the home of Mr. and Mrs. W. B. George, Arm Street, on Friday and Saturday evenings.

On Friday evening dancing formed the evening's amusement in conjunction with five tables of bridge, when the hostess was assisted in welcoming the guests by Mrs. H. M. Cassidy and Mrs. J. P. Walker, while presiding at the supper table were Mrs. H. M. Cassidy and Mrs. Allan Peables. On Saturday evening twenty-nine tables of bridge were in play. Mrs. A. J. Patton assisted Mrs. George in receiving the guests and Mrs. H. M. Cassidy and Mrs. J. P. Walker presided at the supper table.

Mr. H. Collings presided at the seat of custom on both evenings. Dancing took place in the ballroom of the home while bridge was played in the drawing and reception rooms on the main floor of the residence.

The winners of the prizes awarded for bridge were: Ladies, Dr. Norrington, Mrs. O. D. Brown and Mrs. A. K. Munroe, and for the gentlemen, Mr. A. J. Sehl, Mr. Dennis Brown and Mr. Whittier Stephen.

Former Nurse is Bride

Mr. and Mrs. Wm. Leonard Ohs, whose marriage took place at Alberni, recently. The bride, formerly Miss Harriet Ann Tuttle, attended Sir James Douglas School, Victoria, and was a graduate of St. Joseph's Hospital Training School.

Society

Mrs. P. M. Barr came over from Vancouver on Saturday on a short visit to her mother, Mrs. C. W. Bradshaw, Logan Avenue.

Mr. J. G. Brown, former Victorian, who left here some years ago to make his home in Scotland, will arrive here on Glasgow next week-end. He intends to spend several days in the city before proceeding to Glendale, Cal.

Miss Bruce, Falkland Road, Gordon Head, who has been spending a few months visiting in Winnipeg and other parts of the middle west, has returned to her home in Gordon Head.

Miss Lucy Bryden, Transit Road, Oak Bay, will accompany Miss Joan Cudemore to England when she leaves early in December for the mainland en route to St. John to sail from there on December 12 on the Duchess of York for England to join her mother, Mrs. J. A. Fellowes. Miss Bryden will visit in Vancouver with friends for a few days before leaving for the east.

Mr. and Mrs. Chris Houghton, Pandora Avenue, accompanied by their daughter, Miss Dorothy Houghton, left yesterday for Montreal, to sail aboard the ss. Letitia on November 27, for the Old Country. Miss Houghton's marriage to Mr. Thomas Rowlands, only son of Mr. and Mrs. Jack Rowlands, "Oshawa," Maesdu, Llandudno, North Wales, will take place shortly after her arrival there. Mr. and Mrs. Houghton will also make their home in North Wales.

The W.A. to the Victoria Horticultural Society held a very enjoyable and successful card party in the Liberal headquarters on Saturday evening. Eight tables of bridge and three tables of whist being played. At bridge for the ladies Mrs. O'Neill secured first, and Mrs. F. Rushworth, second; whilst Mrs. D. Ramsay received the consolation. For the men, P. C. Cannon was first with T. C. Hubbard second, and Mrs. Coates played as a gentleman, received the consolation. Mrs. Nicholls was high scorer at whist, with J. Simpson taking the consolation. Refreshments were served by the social committee, Mrs. Francis Turner acting as convener for the party.

Mrs. Lionel Huxtable entertained a large number of guests at her home, 627 Falkland Avenue, on Saturday afternoon, the occasion being her post-nuptial reception. Pink chrysanthemums were arranged with charming effect throughout the reception-rooms, and on the lace-covered tea-table a silver basket of blue tapers in silver candlesticks. Mrs. Huxtable received the guests in her wedding gown of white satin, made in medieval style. Her mother, Mrs. Arthur Davies, with Mrs. A. S. Huxtable, presided at the tea-table for part of the afternoon. Mrs. Hugh Rider and Mrs. Douglas Smith taking over the duties later. Assisting the hostess in serving were Mrs. Dudley Stephens, Mrs. Arthur Steward, the Misses Kathleen and Mary Haynes and Miss-Vida Shandley. Little Barbara Knott looked after the door.

Weddings

DONALDSON-HAMILTON

A quiet wedding took place November 3 at the home of Mr. and Mrs. George Hamilton, 2941 Kitchener Street, Vancouver, when their only daughter, Margaret Eleanor, became the bride of Mr. E. M. Donaldson of Victoria.

The bride was attended by Miss Roberta Mary Vogel, while Mr. Harold C. Emery supported the groom.

Rev. Bruce Gray was the officiating minister.

Mr. and Mrs. Donaldson are making their home in Victoria.

McCONACHIE-SHIELDS

A quiet wedding was solemnized on Saturday afternoon at St. Paul's Presbyterian Church, Victoria West, when Rev. James Hyde united in marriage Agnes (Nessie) Shields, daughter of Mr. and Mrs. Robert Shields of Keddleston, Sask., to David McConachie, son of the late Mr. and Mrs. Archibald McConachie, late of Campbeltown, Argyllshire, Scotland. The bride wore a dress of white satin with three-quarter length veil of silk tulle, fastened with a spray of orange blossom and her bouquet consisted of Ophelia roses and white carnations.

Miss Jennie McConachie acted as bridesmaid and wore a dress of powder blue crepe and shoulder spray of rosebuds. Mr. Percy Murray supported the groom.

A reception was held at the home of Mrs. P. W. Murray, Signal Hill, sister of the bridegroom, the rooms being beautifully decorated with mauve and white chrysanthemums. The wedding cake centred the table, from which was served a buffet supper.

After a trip to Seattle and other Sound City points Mr. and Mrs. McConachie will make their home in Victoria. For traveling the bride wore a suit of navy blue and black seal coat and other accessories to match.

W.I. Handicrafts To Be Displayed

Victoria Women's Institute made plans for a bazaar and handicrafts display on Friday at the meeting held recently. Mrs. William Peden will be the general convener, and the affair will be held at 637 Port Street.

The superlatives and needlework stall will be in charge of Mrs. Manson and Mrs. J. L. White; home cooking, Mrs. Marks and Mrs. Lucas; candy, Mrs. L. Schmeitz; tea, Mrs. M. Brown, Mrs. Dean and Miss McCarthy. The sale will be a demonstration of handicrafts "in the making" as well as the finished articles. Mrs. Findlay will have charge of the spinning and weaving; Mrs. G. Sexton, basket-making; Mrs. G. P. Napier, candlestick bedspreads.

The annual meeting of the W.I. will be held on Friday, December 4, at 2 p.m., and the regular business meeting on December 18. The committee in charge of names for nominations includes Mrs. C. Johns, Mrs. Dean and Mrs. J. D. Gordon.

Royal Reunion At Sandringham

By THOMAS T. CHAMPTION

London, Nov. 23.—Queen Mary, it is expected, will preside over the royal family's Christmas reunion at Sandringham.

The King probably will arrive Christmas Eve, remaining until December 27. Then His Majesty will go to Port Belvedere, his house near Windsor, to entertain a small New Year party.

The Dukes of York, Gloucester and Kent, and their wives and children, will join the Queen. Yorkdale naturally will be spent even more quietly this year than usual. Last Christmas was overshadowed by the royal circle by fear of King George's falling health.

Popular notion Christmas was ever a time of high festivity at Sandringham always was mistaken. The season over several generations has held sorrowing memories for the royal family.

In aid of the funds of St. Andrew's Cathedral bazaar included the Misses Emily and Harriet O'Brien, Mrs. Stuart Kenning, Mrs. J. H. Moore, Mrs. C. E. Wilson, Mrs. Gilbert, Mrs. George Brady, Mrs. Doherty, Mrs. A. T. Monteith, Mrs. K. T. Hughes, Mrs. T. B. Monk, Mrs. Davis, Mrs. J. Ciceri and Mrs. B. R. Ciceri. The Misses O'Brien, who convened the affair, entertained with seven tables of players at their home on Woodstock Avenue. Those playing were Mr. and Mrs. A. T. Pemberton, Mr. and Mrs. F. Hassard, Rev. Father Albury, Mesdames A. H. Alexander, Black, J. Morkin, I. G. Trudel, Crawley, W. McManus, Cockburn, S. Storie, J. Jenkinson, Deacon, F. H. Hardiman, G. H. Scarratt, E. Whitaker, O'Leary, W. Champion, W. H. Bell, Vernon Thomson, W. W. Baines and Miss de Trafford.

On Saturday evening on the occasion of the fourteenth birthday of her younger daughter Iris, Mrs. R. C. Pemberton, assisted by Mrs. F. Corbridge, entertained at a children's fancy dress party at her home on Oliver Street, Oak Bay. The evening was spent with games, contests and dancing and the prize for the best costume was won by Miss Audrey Ruffell as an Irish Colleen. The guests included the Misses Josephine Plack, Jean Beckwith, Ivy Miles, Thelma Wait, Audrey Ruffell, Daphne Gill, Jocelyn Cave, Marjorie Bartram and Dorothy Pemberton.

Dance to Honor Varsity Team

The Victoria Rugby Union have preparations well in hand for the dance to be held on December 5 at the Royal Victoria Yacht Club. The proceeds of the dance are to go to the Varsity Rugby team, which will play the first McKechnie Cup game here on that day.

The committee in charge is making special efforts to insure that the affair will be one of the outstanding social events of the season. The proceeds of the dance are to go to the hospital fund for injured players. The committee in charge includes Major Stuart Robinson, Mr. Aubrey Walls, Mrs. Ronnie McComman, and Mr. Robert Wallace. Tickets may be obtained from any member of the committee of the Rugby Union.

Friendly Help Board Busy

At the regular board meeting of the Friendly Help Welfare Association, held on Wednesday evening, members of the case committees were also present by invitation.

The chairman of that committee, H. T. Ravenhill, presented his report. Thus some of the difficulties confronting the families concerned were more vividly appreciated and the solid work done by way of help to avoid the disasters of broken homes and shattered hopes was made evident. Slow and arduous such work must be, requiring skill and patience, and the findings of such a committee must prove of inestimable value to the cause of family case work.

Mr. F. E. Winslow reported briefly on the Social Service Conference under the leadership of Miss Charlotte Whitton, who had reported that this conference was one of the best she had taken part in.

Rev. Father C. T. Albury asked for a consideration of the John Howard Society's need, and the board carried a resolution to the effect that the board room at Welfare House be offered for three afternoons a week for three months.

A report from the publicity committee was brought in, and it is hoped some details of the Christmas pamphlet will be published later, containing the kind of individual need the board aims to meet.

Miss Sara Spencer was elected a member of the board. The offer from the Woman's Auxiliary of the Anglican Church to help with the distribution of used clothing was accepted with thanks.

Solo Dancers At St. Andrew's Ball

A short programme of Scottish exhibition dances will be featured during the supper intervals on November 30 at the St. Andrew's Ball at the Empress Hotel. This programme includes the Sword Dance, by Miss Mayon Peterson; Seann Triubhas, by Miss Nancy Ferguson, and together they will do the spirited Highland Fling. Miss Ferguson, always a favorite with Victoria audiences, this summer took a trip to the Old Land and in Edinburgh studied at one of the most famous schools of Scotch folk dance.

The supper will be served at appropriately decorated tables in the ballroom, cabaret style. But unlike the usual cabaret arrangements, it will be served at precisely 11 o'clock. It is during this supper that the haggis, "Chieftain of the puddin' race," will be piped in with all rite and ceremony to be cut with pomp and panoply by the killed sword-bearer.

Children's Films Not Popular

Hollywood Finds They Want Villains Punished

Hollywood, Cal., Nov. 23 (Associated Press).—The movies showing to the most children this year have been the so-called adult films.

And so Hollywood has come to the conclusion, after watching matinee receipts, that there is no advantage in making pictures especially for children.

Youngsters between the ages of eight and fifteen prefer adult heroes and heroines, with the exception of Shirley Temple. The west coast theatre figures present some unexpected statistics. In second place in child popularity is "The Trail of the Lonesome Pine," definitely adult entertainment, with Harold Lloyd's "The Milky Way" running third, "Mutiny on the Bounty" fourth and "Earthworm Tractor" fifth.

Other pictures that were well up on the list include "Broadway Melody," "The Big Broadcast," "Rhythm on the Range," the Charlie Chan series, "Texas Rangers," "China Clipper" and "A Night at the Opera."

Thornton-Sagor, a film official, says it is the children, not the censors, who demand virtue be rewarded and vice be punished.

"They want the 'heavy' smashed up to a pulp," says Sargent. "They want vice not only adequately but savagely punished. Anything that corresponds to the racial period of barbarism, where individuals or groups have to pit themselves against natural circumstances, appeals to young moviegoers."

London, Nov. 23 (Associated Press).—The London County Council is considering legislation to prevent films classed by the board of censors as "horrible" from being shown to children under sixteen.

Two pictures recently classed as "horrible" were "Dracula's Daughter" and "The Walking Dead."

The poisonous footstool called the fly amanita used to be made into fly poison.

Reception For Canon Wickens

Canon S. J. Wickens was welcomed last Friday evening by the members of St. Columba Anglican Church. The function was held in the Strawberry Vale Community Hall. Charles Hill, on behalf of the parishioners, gave the address of welcome to Canon and Mrs. Wickens. The rector expressed his appreciation of the many tokens of loyalty. A musical programme was presented, including the following items: community singing, led by Canon Wickens; vocal solos by Mrs. G. Watling, and string instrumental trios by Miss Jessie Lahmer, Alan and Chester Lahmer.

Princesses In Car Accident

Oso, Norway, Nov. 23.—Crown Princess Martha was unhurt yesterday when her car was knocked off the highway in a collision near here. Her two daughters, Princesses Ragnhild and Astrid, also escaped injury. Luckily their car did not topple into an adjacent gorge. Princess Martha is a sister of the late Queen Astrid of the Belgians, killed last year in an automobile accident.

Presentation To Departing Vicar

With an attendance of one hundred and fifty, a community farewell social was tendered Rev. A. M. Acheson-Lyle, who has had charge of the parish of St. John's, Colwood and St. Matthew's, Langford, for the last three years and who is leaving shortly to reside in England. Capt. F. James acted as chairman. Those taking part in the programme were: Mrs. Staverman, Mrs. J. King, Mrs. Kingsley Southwale, Miss Mae Southwale, Messrs. F. Smedley, F. Goodsell, E. Southwale, J. St. James and W. E. Stevenson. G. A. Turner expressed the regret at the loss of Rev. Acheson-Lyle and on behalf of the community presented him with a traveling case.

Mrs. W. M. Brown, on behalf of the Women's Auxiliary to St. John's Church and the Men's Club, presented Mrs. E. Linley with a purse.

British immigration authorities refused to be swayed by beauty when Tamara Desni, above, tried to land in Southampton from a liner crossing from the United States, and the Russian film actress was forced to proceed to Bremen. But Tamara had the last laugh. She announced she is to wed Bruce Setton, film actor, relative of the Duke of Abercorn, and perhaps live in England.

Bans Lipstick At Communion

Hove, Sussex, Nov. 23.—An appeal to women to "renounce" lipstick before partaking of Communion has been issued by the Vicar of Hove, Canon F. J. Meyrick. Writing in the parish magazine, he said: "The stains on a teacup are unpleasant, but a teacup for the time being is your own. The chalice is not your own. It is the cup of fellowship, to be shared by all."

Your Baby And Mine

BY MYRTLE MEYER ELDER

MENTAL OR PHYSICAL ILLS MAY BE RETARDED THIS CHILD

The predicament of a child who is endeavoring to compete in school work when she is physically or mentally handicapped is always pathetic. Mrs. E. W. is worried enormously about her six year old, who started to school in September. "Every day she gets an E on her papers. I have gone over them with her, as has her father, but she cannot seem to learn. I have sat for hours trying to teach her two new words. She knows only six or seven out of sixty or seventy, and I have had to give up in despair."

"I have talked to her teacher, and she says her mind is miles away—she pays no attention. I would like to send her to a private school where she will get better instruction. "I know you will tell me she has just started and for me to have patience, but I have surely tried to have this."

It would be folly to have patience and do nothing about a situation so vital to the child's future. And I feel, too, that if you have sat for hours trying to help her, no private school could do more or as much. My first thought when there are reading difficulties is that the child's eyesight is not good. If she cannot read the words plainly no amount of "teaching" will help her to recognize them. The difficulty of trying and failing to see would make her inattentive to the school programme.

Take her first to a good eye and ear specialist to check up on these vital aids to learning. Then to a psychologist, which your school can recommend, for a mental test. When you know whether you are dealing with a normal child, whose senses are handicapped, or with a mentally deficient child, you will then know what remedial steps to take. If she is normal I should try a different school, since her present teacher is chronically unsuccessful in winning her interest.

Our leaflet, "Home Care of Colds," will be helpful to mothers. Send a 3-cent stamped, self-addressed envelope to Myrtle Meyer Elder of the Your Baby and Mine department of this newspaper.

Big Christmas Staffs For Stores

New York, Nov. 23.—Some 1,500,000 shopkeepers of the United States expect to take on the largest force of extra workers to handle the Christmas jam that has moved behind store counters and through stockrooms since 1929. Nearly 600,000 new jobs will be filled between now and December 25, the National Dry Goods Association has pointed out. This group of recruits will be added to the present standing army of some 4,000,000 employees in retail establishments dotting the land.

Big Church Fund Is Now Restored

Windsor, Ont., Nov. 23.—A loss of \$758,000 which the Church of England in Canada suffered four years ago as a result of maladministration of its Rupert's Land working fund has been more than fully recovered. Rev. Canon Henry Gould, general secretary of mission, told a capacity congregation in All Saints' Church here yesterday. The effort on the part of church members and clergy had the effect of vindicating the honor, not only of Anglicans but of the whole Christian church, Canon Gould believed. But, greater still, he contended, it had maintained the honor of the Master of the church. "It would never do," Canon Gould said, "for anyone to point a finger of scorn at the Master of the church, because of the failure of any member of that church."

According To Plot

More and more Margaret Sullivan (top) finds the pattern of her life following that of the plot of "Stage Door," in which she is starring on Broadway. Like the play's heroine, she is "stage struck," preferring the footlights to the movies; and as on the stage she has become the bride of an actor's agent, Leland Hayward (below), whom she married at Newport, R.I., in an unexpected ceremony.

Liberal Bazaar At Victoria West

Victoria, West Liberal Social Club will hold their annual bazaar on Wednesday, November 25, commencing at 2:30 o'clock in aid of the children's Christmas tree. The bazaar will be opened by Mrs. C. J. McDowell. Various attractions, including fancy work, home cooking, candy and bean tub, have been arranged. Afternoon tea will be served and tea-dance reading. The bazaar will conclude with an old-time dance; the music by Scafe's old-time orchestra.

YOU CAN THROW CARDS IN HIS FACE ONCE TOO OFTEN

WHEN you have those awful "cramps" when your nerves are all on edge—don't take it out on the man you love. Your husband can't possibly know how you feel for the simple reason that he is a man. A three-quarter wife may be no wife at all if she nags her husband seven days out of every month. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three or four years of life. Turning from girlhood to womanhood, preparing for motherhood, preparing for middle age. I don't believe a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND, and go "Smiling Through."

AROUND THE TOWN With Mistress Pepsys

Saturday, November 21. This morn brings mighty surprise. Samuel doth appear all smiles and bright conversation, and soon he and Mistress Peggy do go off together to play goodie golf.

Being alone, take time to move about my garden. My posies be all nipped and nothing left but blackened ruin. 'Tis not such terrible disaster as might appear, for I do find that always the house even if Jack Frost doth visit my garden. The Poy Shop at 623 Fort Street doth have great bunches of single chrysanthemums, all colors, and so very reasonable. These make bright spot of color in the darkest corner and with my garden posies lost I forthwith plan to visit the Poy Shop this very day. Spicy mums be fragrant but for moist November days.

Through the morn the telephone did shrill. 'Twas madcap Peggy. She do invite some friends for tea this day. And she did whisper in the midst of this that Samuel be quite gay cavalier. Perhaps 'tis goodie this be my own niece.

Hasten forthwith to English Bakery at 726 Fort Street. 'Tis the very place to finde dainty fare for unexpected teas. Delicately layer cakes do come out of these famous kitchens. There be flavors of orange and pineapple. A new Brazil, 'tis frosted with white butter cream and flakes of Brazil nuts shaved thickly on. There be Tutti-Fruit layers... so delicious... white butter cream all decorated with pineapple and cherry bits. And ever the luscious Chocolate ones. These cakes do come in two sizes, so every one be pleased.

Hasten on down Fort Street to stop long moment before bright windows of unusual shop. Looking once, cannot forbear to poke my nose within. 'Tis Harris Bicycle Shop... yet me thinks, 'tis wrongly named, for here I do finde there be not only bicycles, but many fine things that do make me gasp with wonder. Here be mecca for growing kiddies. Mister Harris do display of tri-cycles, wagons, automobiles and scooters, and kiddle cars I ever do see. They be so modern in fine streamline designs... so shiny new in bright reds and greens... and all do show the little gadgets boys and girls do ever love. Exclaim long over big fire engine. 'Tis complete... streamlined with hook and ladder and it doth carry two. With thought that Peg will wish a gasp before tea doth appear, plan to bring some bit for prize. Period Art

Do find on reaching home niece Peggy and Samuel be already seated at table. They do share mighty joke as I enter... the room be filled with laughter. Samuel doth eat mightily this day and never a complaint of liver. Men be strange creatures! Mistress Peggy's afternoon be pleasant affair and evening once again sped merrily. Find me myself thinking of soon inviting friends for dinner and good music to follow. Samuel in this present mood would, me thinks, agree. 'Tis pleasant thought!

LONGEVITY OF
WILD ANIMALSBy E. G. BOULENGER
In The New Statesman and Nation

Sir Peter Chalmers Mitchell and Major Stanley Flower have given much attention to the subject of longevity in wild animals, and have found that a certain correlation between size and age appears to exist. The exceptions are so numerous, however, that generalizations are at best somewhat hazardous.

For example, the elephant, the hippopotamus, and most of the larger hoofed animals live three or four times as long as most dogs, cats or rodents. Yet the whale, by far the largest of living animals, in all probability does not enjoy a longer life than that of the donkey. The age at which an animal reaches sexual maturity has a definite bearing upon its potential longevity, and recent inquiries have shown that some of the largest whales are capable of reproducing their species when only two-and-a-half years old—an age when the average human is only just becoming sentient.

One might reasonably suppose that the ostrich, standing eight feet high and weighing 200 pounds, would easily outlive a vulture of little less than a quarter its weight. The ostrich does not, however, live more than thirty-five years, whilst vultures, parrots and ravens are all potential centenarians. An Egyptian vulture has been known to live for 108 years, a golden eagle for 104, and a parrot for 102. Still more surprising is it to learn that the large cassowary lives on an average but a few years more than the diminutive skylark, which may under favorable conditions survive for over a quarter of a century. The longevity of the smaller species of birds is greater than is generally believed. Thus a nightingale has been recorded to have lived twenty-five years, a goldfinch twenty-three, a carolinian twenty-three, and a canary twenty.

GIANT TORTOISES AND ELEPHANT

The only animals known to outlive man are the giant tortoises of the Islands of Aldabra, off Madagascar, and Galapagos, off the coast of Ecuador. A giant Aldabra specimen which was not long ago living in the compound of the Royal Artillery mess at Mauritius was taken from the French in 1810. This specimen was actually given special mention in the charter drawn up when the island was ceded. The history of another, that died at Columbus in 1888, dated back over 200 years; whilst yet another, which died only three years ago, is known to have been a contemporary with Napoleon in his exile on St. Helena and was at the time full-grown.

Most creatures, compared to tortoises, are comparatively short-lived, and all those that attain to even thirty years and over can be counted on one's fingers. The following list gives an idea of the known potential longevity of various animals: Man 100 years, elephants 60, horses 40, whales 40, bears 35, apes 35, cats 30, giraffes 30, sea-lions 25, camels 25, bats 20, pigs 20, kangaroos 20, squirrels 15, rabbits 15, mice and rats 8. Elephants in the popular imagination live for a century or more, but many available records indicate that they seldom exceed the age of fifty. Major Flower, who has examined the passports of some hundreds of elephants kept in India as well as in Europe and America, states that he is unable to find any evidence of an elephant living to the age of 100. He is of opinion that the life span of these mammals is much less than that of man, averaging only about forty years. Writing about lions which have been kept in captivity for over thirty years, Major Flower observes that they outlive their normal span of life. He points out that a captive lion sheltered from the elements, and from other competitors in the struggle for existence, and with suitable food placed within

MAKES GAME BY SQUEEZE

Without Single Finesse Situation, Declarer Gets Eleventh Trick by Forcing Hands of Opponents

By WM. E. MCKENNEY
When Cyril Dougherty, of Pittsburgh, Pa., counted his tricks, on today's hand, he seemed to be one short of his contract of five diamonds.

He had six trumps, two spades, and two hearts, but the game-going trick seemed hard to find. There was no finessing situation which would permit him to pick up a missing honor. There remained only the resource of the squeeze, and Dougherty, of course, took this only chance to fulfill his contract.

West's opening bid was, of course, very sketchy, but he wanted to prevent a no trump contract by his opponents, and this his club bid was almost sure to do.

The second round of clubs was ruffed by declarer, and the king of reach, goes on living to an age that it cannot attain in the wild state. The wild lion is in its prime of life when five to seven years old. After twelve years the animal begins to lose its teeth and is then killed by its younger and more vigorous companions.

Fresh-water sturgeon living in Captain Vipan's private aquarium at Stirling House, Northamptonshire, are known to have been obtained from Russia over forty years ago, whilst a number of giant catfish in the Duke of Bedford's lake at Woburn have seen sixty-five years of captivity.

Amphibians are nearly allied to fish, and I have now under observation some Japanese salamanders which may possibly live to be nearly a hundred by the time they reach their maximum size—namely, five feet. The common toad, which is credited with surviving for countless centuries walling up in crypts, will, it has been found, die of starvation in less than a year, and scientific investigators have put its utmost life span at only thirty-five.

Women's Workroom—Additional contributions to the recent material shower for the Women's Workroom include: Money, Mrs. Hobart Molson; new materials, Miss Saunders, Mrs. Curtis Sampson, Mrs. Cullum and Mrs. J. G. Hazelwood.

Spanish conquerors of Peru observed that the Indians chewed coca leaves, which, due to cocaine in the leaves, enabled them to stand more fatigue.

Today's Contract Problem

South is playing the contract at four hearts. West overcalled the opening heart bid with two clubs, North doubled, and East bid two diamonds. Can South make an overtrick, if he reads the adverse distribution correctly?

diamonds was laid down. East won and returned a club, which South ruffed.

Dougherty now made the play known as the Vienna coup, by cashing the ace and the king of hearts in dummy. He then played four more rounds of diamonds and on these tricks West could not protect both spades and clubs, and East could not retain his heart queen and a third spade.

Dougherty alone, among the South players, made five diamonds on the hand. It is interesting to note that, had West opened a spade in response to his partner's bid, the squeeze could have been defeated.

"Y" CAMPAIGN RESPONSE FINE

Y.W.C.A. Expects to Keep Books of \$5,000 Drive Open During Week

Because of the manner in which the response of the public to its appeal is keeping up the Victoria Young Women's Christian Association expects to have to keep open the books of its \$5,000 financial campaign for some time past the officially set closing date this evening.

Workers in the drive have been gratified by the manner in which the association's work is being appreciated among the general public, and at the willingness shown to contribute towards the organization's valuable community services.

Local stores and companies have also been exceptionally generous in their support, according to Mrs. H. M. Cassidy, president of the association and chairman of the special names committee in the campaign.

Organizers of the drive will have a clearer knowledge of their exact position this evening, after a report meeting scheduled to be held in the "Y" building at tea-time, when it is expected subscriptions will have reached the \$3,500 mark.

It is understood that a further report meeting will be held later in the week, and it is hoped that by that time the subscription will be close to the objective, providing the response of the public continues at the same standard.

REVERCOMB TO SELL GRAHAMS

Appointed Vancouver Island Distributors; New Models Here

Walter B. Revercomb, manager of the Revercomb Motors, 925 Yates Street, announces the appointment of his firm as Vancouver Island distributors for the Graham car, 1937 models of which are now on display in their showrooms.

The arrival of these cars has roused considerable interest among the motoring public of Victoria. Brilliantly styled and appointed throughout, the 1937 Graham reveals many advanced engineering features while its appearance maintains the Graham tradition of leadership in beauty of car design.

Four series are presented in Graham cars, two with super-charged power plants and two without. Most striking of the super-charged line is the Custom super-charged 120 with 116 h.p. motor and 120-inch wheelbase. The second in the super-charged group is powered by 106 h.p. motor and has 116-inch wheelbase. The third group delivers 88 h.p. with a range of body styles that are identical with the 116. The fourth and lowest-priced car in the line is the Crusader, which has a 70 h.p. motor and a wheelbase of 111 inches.

In exterior design, Graham again carries the mark of advanced design which has been so greatly admired in the past. The gracefully curved chrome grille of the radiator is divided by a figured metal panel finished in the color of the car body. Distinctive individual hood ports carry triangular chrome grilles. Skirted fenders are contoured front and rear, almost exactly alike.

To keep deer from nibbling young chinquapin trees in Sequoia National Park, California, foresters hang cloth balls soaked in crocote on the trees, but the deer have apparently learned to like crocote and they now are nibbling again at the green shoots.

General Debility
Can Be Overcome

Energy Builder Quickly Helps Recovery
Other people have vigor and energy to spare. If you haven't, if you feel weak and weary and the tasks of the day seem too much for you, it is probably because your system is overtaxed. See what PHOSPERINE, the great British Tonic, can do for you.

"I was very depressed, and my nerves were in a very exhausted state," writes Mrs. P. Kay, 60 High St., Tooting, Eng. "What worried me mostly were frequent attacks of dizziness. I started taking PHOSPERINE. After only a few doses my head became quite clear and my strength steadily returned."

PHOSPERINE helps sufferers from debility, nerves and run-down condition to find new physical and mental energy quickly. It is concentrated nerve nourishment. Start taking PHOSPERINE now. Almost at once you are likely to feel the surge of vigor and energy that you may have dreamed of ever knowing. Get the \$1.50 bottle from your druggist. It contains double the quantity, and 4 times as much as the 50c size. (Adv.) 44

Letters to the Editor

SOME CHALLENGING BIBLE FACTS

To the Editor:—May I be permitted to ask you to publish the following account of the Creation? First, let us start with Gen. 1:27. "So God created man in his own image, in the image of God created he him, male and female created he them." Now if this creation had to be male and female, in order to be in the image of God, then we have fact 1, "that God is male and female."

Now to Chapter III, 20, here we find that Eve was the Mother of all living. Fact 2. "Eve was not a woman, or she could not be the mother of all living," snakes, pigs, etc.

Now back to Chapter 1:24. Here we find that the earth brought forth (or gave birth to) cattle and creeping things, yet Eve is the mother of all living.

Fact 3. "Eve must be the earth." Now if Eve is the earth, then of necessity Adam must be the Sun. Why? For two reasons: first we know that all life on this earth is dependent on the rays of the sun, and secondly, the rib story is fulfilled in the known theory that the earth is a satellite, cast off from the sun.

Fact 4. "Adam is the sun." This brings us to the conclusion that the force that created all things was the "sex force," which permeates all space.

Fact 5. "God is the sex force." God expresses (so far as humans are concerned) through the sun (positive) and the earth (negative). These few facts, sir, are just a few of many that might be brought out. But with a religious system steeped in superstition, and fear, it would be folly to present them, for how many will be in a position to accept, or even consider the few simple facts quoted above, let alone the deeper and more radical ones, that call for a mind trained to stand alone and devoid of superstitious fear.

WOULD OUTDO MR. TWIGG

To the Editor:—In reply to Mr. Evans of Duncan I may say that I do not think that Mr. Twigg has ever suggested that there should be any breaking away from the Confederation of Canada or from the British Empire.

Apparently the main idea of the Vancouver Island Association is to break away from the domination of party politicians and replace the so-called Provincial Parliament with an enlarged county council, which in reality, it should be, party politics have no proper place in the purely administrative duties of a provincial government.

Insofar as the costs of a separate government for Vancouver Island are concerned I think that the taxpayers of the island would find that such a form of government would be a much less expensive luxury than the possibly ornamental and certainly not very efficient form that they have endured for the past fifty years.

I would like to go a step further than Mr. Twigg and his associates, and suggest an elected board of governors or directors, of the Lieutenant-Governor as chairman, to run the island on the same purely business lines as any of our big corporations are run for the benefit of the stockholders, who in this case would be the citizens and taxpayers.

I do not doubt that Victoria would like to extend its city boundaries to take in adjoining municipalities, but I have not noticed any marked enthusiasm for this idea on the part of surrounding municipalities.

C. E. ATTER.

OAK BAY RELIEF

To the Editor:—In a communication received by one interested in the welfare of the relief men the municipality writes the following: "Oak Bay does not make a practice of deducting monthly from the pay envelopes of the relief men the amount due for water rates. If, however, they fail to pay the monthly water rate by the date due, the amount due, one month is deducted from their next installment of pay." (We receive two installments each month.) "Not more than eight or nine have to be treated this way."

One statement contradicts the other. Why does Oak Bay deduct \$1.50 for water rates from men who have voluntarily paid from time to time? May I state that certain men were not given any extra work as is stated in the following statement: "We find also that, in cases of a few of these men, notwithstanding that they have been given extra work ostensibly to enable them to cover their taxes and water rates, they allow their water rates to slip further and further into arrears." How on earth could these men slip further and further into arrears, if they have had \$1.50 deducted each month for over a period of a year? It is against all logic thinking.

Referring to the municipality's letter, I quote: "You say that these men are anxious to maintain their obligations." Surely these obligations include water accounts. Is it not the municipality's duty to use such powers as it possesses to enforce payment? Is it your suggestion that the municipality should supply them with water free?

God forbid! It would be a terrible calamity to supply free water. It would break the municipality! Does Oak Bay regard the relief men in the same financial category as the wealthier retired or business taxpayer? Give these men a chance to meet their obligations.

The letter concludes with: "We do not believe that the B.C. Electric or the B.C. Telephone Company, or any other public utility would allow its accounts to run two years or more into arrears as is the case with some of our water arrears."

Evidently Oak Bay places itself in the same class as a profit-making institution. Incidentally, Oak Bay does clean up a nice little profit on supplying water to the unemployed man when they extract \$1.50 for what cost 50c, based on the rate of 7½c

per 1,000 gallons charged by the city of Victoria. And, finally, with all other costs included, totals 12.1 cents per 1,000 gallons delivered. While officials like the municipality to a business enterprise, they tactfully forget the fact that 80 per cent of their relief costs are met by the government. Does the light or the telephone company receive the same? I believe not!

May I make the following suggestion: In view of the fact that the provincial government has relieved the municipality of several social service costs, that Oak Bay in the same spirit relieve the burdened relief man just one of his many costs, viz., the water arrears which he incurred during the darkest days of the recent depression, days and months when relief in Oak Bay was handed in a very crude and spasmodic manner, when relief men practically received no remuneration at all until the fair wage clause was enforced by the government, the compelling Oak Bay to raise the starvation wage.

Would it not be more humane? I cannot believe that any Christian municipality would ever enforce section 232a of the Municipal Act, a law recently amended whereby water arrears can be transferred to delinquent taxes, and be treated as such if not paid by a stated period? Oak Bay now seems fit to make a shining example of a relief man by threatening to put his house in a tax sale, not for property taxes, but for water arrears. As one official said, "God may have created water, but he did not lay water pipes, and that's what you are paying for."

REPLIES WITH QUESTIONS

To the Editor:—So that highly intellectual and constructive knight errant, Mr. Percy K. Winch of Victoria, has flown to the rescue of three Young Citizens in distress, three "spotted spirits hurt." That they stand in the direct need of assistance no one will deny.

Victoria's knight errant is the poorest guesser I have ever come across, not even excepting Father Coughlin. Every one of his shots "fly wide in the ditch." This applies as much to his opinion of the Young Citizens' Forum as to his assertions regarding me.

Will Mr. Winch answer the following questions:—
1. What does he find in my letters to justify his assertion that (a) my "ideas are obviously anti-British and anti-Christ," and (b) that I am a "dual citizen?"

2. Will he give his definition of a "dual citizen?"

3. Mr. Winch states: "Obviously, Misourian's Utopian dream is that British Columbia, as well as the whole of the Pacific Coast, will be a second Ethiopia in the very near future." Would he not on second thoughts agree with me that such a dream, so far from being "Utopian," could be more accurately described as a nightmare?

4. Will he give your readers any information he may possess regarding the anti-Oriental Penetration Society, of which he used to sign himself secretary?

It seems to me that in spite of being, according to Mr. Winch, "anti-British," I have "stuck to my guns" with sufficient pertinacity to drive the Young Citizens from theirs. Why, therefore, should Mr. Winch consider it necessary to join the small army of their old school fellows and friends in the foreboding hope of diverting attention from their defeat? Is that his idea of "being British?"

I may say that I am prepared to give evidence in support of statements I have made regarding the Young Citizens, should they, and he, so desire.

I answer Mr. Winch that I shall not overlook his offer to answer certain questions he apparently desires me to ask and at a later date will accept his invitation. But first I would like him to answer the questions contained in this letter. To ask him too many questions is one thing would afford him the excuse of ignoring those he did not wish to answer.

MISSOURIAN.

"THINK AND REMEMBER"

To the Editor:—It is only with the courtesy of The Times that we can bring items such as these to light, and it deserves our thanks.

I had my letter of November 10 inserted in The Times columns, signed "29th Division," referring to the two minutes' silence to the dead on Armistice Day, while for the other 94 days of the year the living war veteran is forgotten.

My case is as follows: I was one of that great 29th Division which made that historic landing at Gallipoli (known as the Dardanelles) on April 25, 1915, at the age of eighteen years.

No one can realize what we went through—it was hell; but although we did, as Britshers, our share, we are now fighting an even greater battle—a battle of existence. Many war veterans are in need, cannot get the job and even have to fight for the needs of life for themselves and families, and because they do this they are blacklisted (although peaceable citizens).

It makes no difference what part of the British Empire we come from, we are all human beings and fought for the same cause, and it is disgraceful to find that we still have this battle for existence on.

In my large family there are five fine sons (whom the country may need some day), but because I have to apply weekly for relief, efforts are being made to send us back to England. What a fine reward and remembrance to the living war veteran, especially when one is seeking position, cannot get it and has to apply for relief, although able to work!

At least, our dead comrades are at peace, but we, the living war veterans,

are suffering. Every day is a day of worry (and it is a great worry when there is a large family). Should we not be allowed to live in peace, knowing we can receive by our efforts everything the Lord gave us instead of being allowed to go about each day in misery. I am only one of many ex-servicemen who is going through this terrible ordeal, blacklisted because one is seeking the needs of existence for a large family, a family which would be a credit to our country—every one of them anxious, ambitious and with clean characters.

My wife, who is a great mother to this fine family, is also going through this terrible ordeal (worry) wondering how the next meals are going to be obtained, how the bread and milk is to be obtained, how the clothes and bedding are going to be got, and because the husband (a war veteran) tries to obtain these needs of life he is called a trouble-maker—and still if he neglected the family he would be called a coward and a deserter. What has a man to do?

Is this what we fought for in the past war?

How long are the veterans' organizations going to tolerate this? Are they going to let comrades be knocked from pillar to post, and because they have to apply for relief be faced with threats and efforts to be sent back to England?

Canadians and Imperials, stand fast! Stop this sort of thing at once! Besides serving in the war, I have also served with the Canadian militia as sergeant until 1935, still proving my loyalty.

In conclusion, I say by all means remember the men who gave their lives for the empire and the flag, but do not forget the living war veterans who are going through the same ordeal as I am: alongside a good woman, mother of a large family who has done her duty also, but cannot rid herself of all this worry. But we trust the good Lord above will find it so easy to shop, gift-wrap, and mail at "The Bay."

SOB STORY SPOILED

To the Editor:—What a nice built-up sob story that was about that man who paraded in kilts in the afternoon and slept on a bench in Beacon Hill Park the same night. Too bad it was spoiled by the second story in Saturday's Times with quoted statements from the man himself.

He had to sleep in a coal car while working on a railroad at Edmonton. It must have been upside down, for we all know what a coal car is. Did he expect to be put up at the Macdonald Hotel?

He had to eat from chipped enamel dishes. Did he expect to eat from a silver service? What kind of dishes does he expect to eat from if, and when he goes into camp with the kilties?

Isn't it true that he was one of a group that slept on the bench on Dallas Road with a canvas lean-to for shelter and a log fire burning all night in front of the tent?

Many a prospector or trapper goes through the winter enduring far greater hardships than this man has. But they have no Jack Price to tell the world (through the press) about it.

Does it strike you as significant, Mr. Editor, that both pictures of this man were taken the same day, paid for by someone? Does that look like a build-up?

He then caps it all by saying he's not enthusiastic about going on a farm at \$7.50 a month. Perhaps he's right. You can pick up more than that here. You don't need to worry about meals, for philanthropists have thrown Sunshine Inn open to all such men, instead of limiting their benevolence to old people and children.

No wonder we have agitators like Evans, Buck and others. Yet Jack Price, a Labor man, is supposed to have both feet on the ground when it comes to radicalism. Perhaps an for their are many "chiselers" in Price's bailiwick.

I. M. WISE

WANTONLY DESPOILED

To the Editor:—"Après nous le déluge," said a careless and thoughtless man, meaning that he did not care what happened to realm and people after he was gone!

Are not those responsible for the preservation of forests acting according to that heartless saying? Does anyone know who they are?

Do citizens of Victoria want visitors and that they mean to the country? Do they ever go for drives to feast their eyes on natural beauty, thus soothing their nerves?

Have they children whose patrimony they would ruin, regardless of their security and comfort later on?

This wealthy land which furnishes us with such endless resources has been wantonly despoiled without one thought for the future of people or country, all for a passing material gain which could be acquired in other ways.

That generous-hearted man, Barnum, had tried to mend matters somewhat. But his last wishes are being disregarded, we hear. Now Mr. J. O. Cameron, a lumberman himself of high standing, speaks fearfully in public to save trees and water. All honor to him. Can nothing be done? Do Canadians enjoy fouling their own nest? Are they intent—as untutored savages do on their enemies—in poisoning their own water wells?

In France people are fined if they cut or use green wood carelessly. Think of the cut wood lying to rot here. Also, a tree over there in France is planted for each one taken out. In Sweden, two trees take the place of the one cut down. Among the beautiful South African pictures seen here the other night, there were several to show the planting of trees on mountain slopes where long droughts have prevailed until now.

In favored British Columbia the need is simple preservation, careful replanting. Let the people speak and act before it is too late. "Aux armes citoyens!" and use the peaceful weapons of common sense, wise judgment, sane legislation, to keep the precious gifts God has bestowed on you, so that they may continue to be for the following generation.

BOOMERANG FOR MR. ABERHART
To the Editor:—Premier Aberhart's direct promise, often repeated during the election campaign and since, frequently denied by him, of \$25 a month to every bonafide citizen, has steadily dwindled to "a dividend of

some sort" to a very limited number of recipients. The \$25 a month promise which swept Mr. Aberhart into power, is likely to act as a boomerang to that gentleman if not fulfilled, in spite of his claim that it is not losing support.

Mr. Aberhart says he is no "Bolshevik" or "Red," but failed to deny any claim to the title of "Dictator" or that any of his cabinet had red, green, black or pink tendencies.

Included in the assets of \$2,600,000,000, claimed as backing for Alberta's imitation dollar bills, are ornate and superlative public buildings, railroads, worn-out highways, a badly run-down telephone system (the rural part of which is being jobbed off at fire sale sacrifice prices to small local companies with a loss of millions of dollars), various other equally costly and unprofitable government schemes, automobiles, homes and personal property of the citizens.

There is no necessity to establish "clearing-houses" to keep the new assets at home, as there is no chance of passing the "velocity dollar" outside the province now that the souvenir market has been flooded (a very profitable government venture for

which Mr. Aberhart should be given (full credit).

I trust for his sake that Mr. Aberhart's followers will show a greater capacity for sticking than do the one-cent weekly tax stamps that have to be affixed to the prosperity (prosperity?) dollar bill every Wednesday, the usual half-holiday in Alberta.

After about two months' circulation some 50 per cent of those stamps have given up Social Credit and disappeared and have to be replaced at the expense of some unfortunate holder; another profitable piece of business for the government, as these stamps have to be paid for in real money, not scrip or any other form of phoney money.

Mr. Aberhart is quite correct when he says, "And some of those who did cash them were very sorry afterwards."

I have yet to see any signs of "just

taxes to producers, consumers or distributors in Alberta, or any beneficial results from "code agreements."

DISAPPROVES FENCE AT HIGHWAY TURN

To the Editor:—Writing on the subject of an obstruction to traffic vision by the erection of a high fence at the corner of Craigflower and Admirals' Roads, nearby the Island Highway, I would say there is a vast amount of traffic moving there all the time, and it is impossible to see anything on the right until you have turned the corner.

I should like to know if any other readers share my opinion.

Boston, Detroit And Americans Winners Of Hockey Clashes

THE SPORTS MIRROR

By PETE SALLAWAY

THOSE swan songs they were singing for Vancouver's James Archibald McArthur, who very indelicately following Friday night's battle in New York, if published reports of Jimmy's return to the old vim and vigor are correct, his future after the proposed waterweight championship go will again be a matter of conjecture.

Reported to be well fixed financially, through the managerial activities of "Pop" Foster, Jimmy was expected to hang up his gloves this year. Now it looks as if he'll tread quite a bit more resin into the canvas before he discards his fighting tags.

Telegraph wires, loaded with hockey stories, are bound to contact a receptive spot in the heart of Victoria's sport world. At one time on the top of the ice heap, this city still cherishes hopes, growing weaker admittedly, of once again securing an ice arena. However, this year, with the civic election only three weeks away, nothing has been said regarding the construction of a sports auditorium with a rink attached.

Those who have enjoyed only a fleeting contact with Dr. Phil Edwards, great British Guiana-Canadian track star, will applaud his selection by the Amateur Athletic Union of Canada as this country's outstanding athlete and sportsman during 1936. Phil, a veteran, campaigner in Olympic lists, probably has done more than any other Canadian towards breaking down the color prejudice in athletics. Those who know him appreciate his gentlemanly qualities as much as his athletic ability.

He was enthusiastically received in Berlin this year and warmly regarded by the sport lovers of the German capital. It seems most unfortunate that the man who was climbing a really great athletic career had to go to England where the petty snobbery of a British hotel made him conscious of his color. He was refused a room in London when the Canadian team sought lodgings during the post-Olympic British Empire games. He was refused a room in the United States. He was refused a room in the Canadian team members over the treatment accorded their captain, they left the hotel en masse for other quarters.

The award given to Edwards this year is the Norton H. Crow Memorial Prize. It was first won in 1931 by Percy Williams, Vancouver. Since that date it has been presented to Alec Wilson, Montreal; Jimmy Ball, Winnipeg; Harold Webster, Hamilton; and Allen Mesher, Halifax.

Allen Robertson, a railway clerk, became secretary of Aberdeen Football Club fourteen years ago, and he then found that the club owed \$12,000. Today his club is one of the wealthiest in Scotland. The club is equal, in drawing power, almost to Celtic and Rangers.

This transformation has been brought about largely by the fatherly influence that the bachelor Mr. Robertson has exercised over the players. He set out to make his players happy. He saw that the unmarried players found suitable but homely lodgings and then persuaded them to think of the future by saving part of their wages each week. Every Aberdeen player has a bank book.

He does not worry himself about the playing side, but Mr. Robertson contends that unless players are happy, they cannot give of their best to the club.

The Arsenal Football Club's new \$100,000 stand at Highbury is the most luxurious stand on any football ground in the country, the top tier seats being of padded leather and the rake so steep that a perfect view is provided for everybody.

Spectators reach their seats from six different floors. There are two luncheon and tea-rooms—the west stand already has one—and an enormous bar for light refreshments. The players' quarters are the last word in comfort and referee, linesman and staff all have rooms with baths.

A new loudspeaker equipment will assist in packing the ground, which can be flooded, so that the staff can level the turf after a match when frost threatens, and thus ensure play on subsequent days, even if the ground is frozen.

RED WINGS AND AMERKS NOW IN SECTION HOLDS

Undisputed Leaders in N.H.L.; Detroit Whips Toronto 4 to 3

Chicago Still Without a Win

There may be more worried men in the hockey world today than Conny Smythe, Tommy Gorman and Clem Loughlin, but it's doubtful. Quaking players fearful of losing jobs on the trio's National League teams may run them a close second but chances are the three are tops in the worrying racket.

Here the schedule is nearly three weeks old, and Smythe's Toronto Maple Leafs have won exactly one game. Gorman's Montreal Maroons have the same slender figure in their win column, and both victories were at the expense of Loughlin's Chicago Black Hawks, who have not won once in six starts.

Leafs played two good games over the week-end but they lost both of them. Boston Bruins beat them 4 to 3 in Toronto Saturday night and Detroit Red Wings took them 4 to 2 last night. Bruins went from Toronto to Chicago to beat Hawks 2 to 1.

To make it even tougher for Smythe and Gorman the other teams in their group seem to be comfortable in the ratified air at the top of the standing. New York Americans handed Maroons a 3 to 2 beating last night and Montreal Canadiens defeated New York Rangers 3 to 1 Saturday. That leaves Americans on top by two points over the Habitués.

SMYTHE SPEAKS

Normally the plight of the usually high-ranking teams would call for replacements, who would ship down the river to the minors, trades and whatnot. But Smythe for one has no idea of breaking up his team. Said hockey's little corporal today: "We've got a darn good team and pretty soon they'll be going strong. I contemplate no deals and no shakeups."

Smythe contends that the many penalties Red Horner incurs do his team no harm because the rest of the players work that much harder when the big redhead is put off. But that did not work out at Detroit last night. While Horner was on the penalty bench Charlie Goodfellow, Larry Aurie and Herbie Lewis rapped three goals past Walter Broda in ninety-three seconds.

Horner had been waved off the ice before the customers were settled in their seats and Detroit led 3 to 0 before the game was four minutes old. Bill Thomas scored in that period and Nick Metz got another in the second but that was as near as Leafs came. Aurie got a second goal in the final session.

Leafs tied the score three times in the game with Bruins but even the cheers of 12,000 fans were not enough to spur them to the fourth goal. Bruins performed without Eddie Shore but Tiny Thompson gave a great netminding exhibition to make up for his absence.

Leroy Goldsworthy, Dit Clapper, Joe Jerwa and Red Beattie got the Bruins' goals and Pep Kelly, Nick Metz and Bob Davidson scored for Toronto. In both Leafs games Charlie Conacher, their ace right winger, was far from his best. Thompson said his drives lacked their usual sting and Conacher had to ask for relief twice Saturday night. He is still nursing a training-game wrist injury.

Ottawa's Bill Cowley scored the winning goal in the Bruins victory at Chicago after a first-period goal by Hooley Smith for Bruins and a tying shot by Bill Kendall in the second.

FINAL DRIVE FAILS

A furious counter-attack in the third period failed to save Maroons from the Americans. The Americans scored twice in the second through a shot Herbie Cain, Maroons' wingman, deflected past Alex Connell and Lorne Carr's goal. Harold Cotton made it 3 to 0 before Earl Robinson and Dave Trotter counted for the Montrealers.

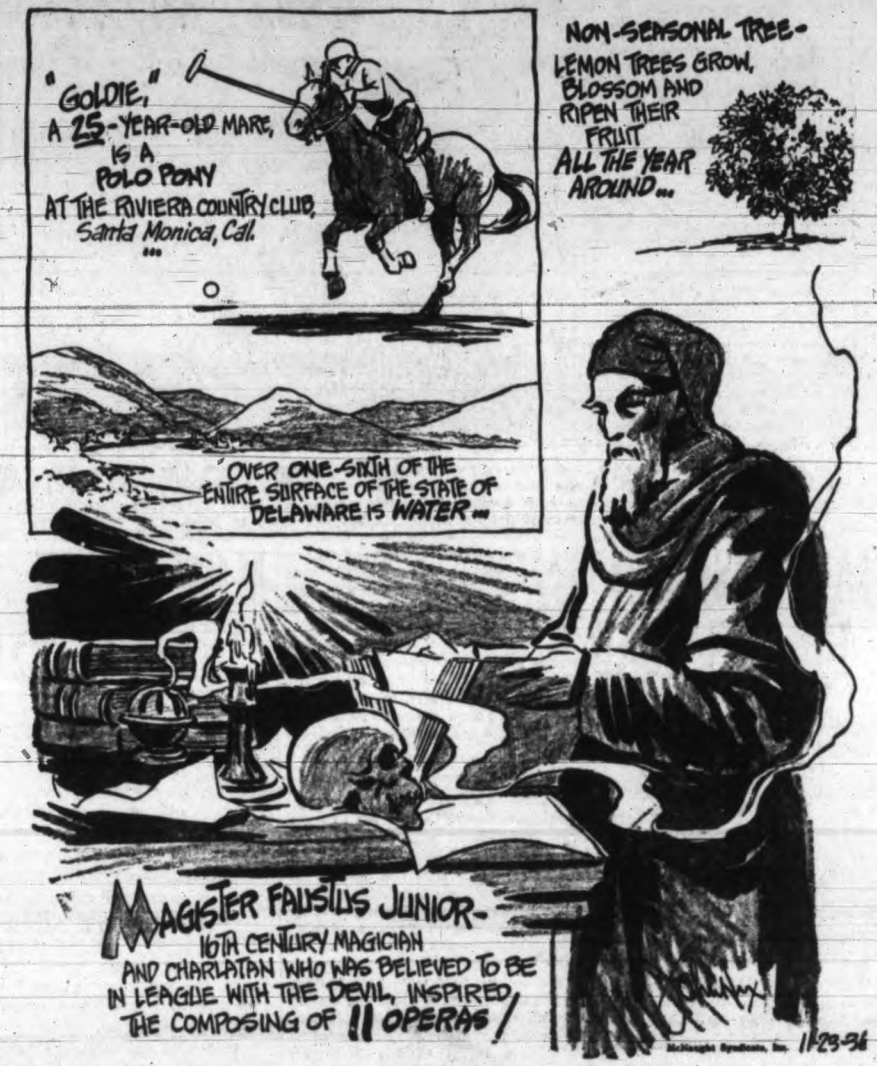

Little Toe Blake's overtime goal gave Canadians their win from Langens. After he had scored on a beautiful play Johnny Gagnon made it sure with another. Babe Siebert had started the Canadians away in the first period and Cecil Dillon had tied it up the third.

Capture Table Tennis Honors

Champions Crowned as City Ping-pong Meet Comes to An End

Chopping, stroking and smashing with perfect timing, Harold Keenlyside, twenty-year-old table tennis star from Vancouver, and holder of several coast titles, was victorious at the Westholme Hotel Saturday evening when he defeated fifteen-year-old Ray Pearson of Seattle in a thrilling five-game match before a large gallery of spectators to win the city singles championship. The scores were 15-21, 21-16, 14-21, 21-15, 23-20.

The men's doubles title went to Wilmot Browne-Cave of Victoria, former men's singles champion, and Harold Keenlyside, the two of them taking the measure of Ray Pearson and W. Judd, Seattle, 21-12, 26-24, 9-21, 21-18.

EXPERIENCE COUNTS

In his title-singles battle with young Pearson, Keenlyside benefited by his greater experience, but just managed to nose out his Seattle opponent in the deciding game by two points. Both boys uncorked some spectacular shots which drew much applause from the fans.

The doubles championship play-off was equally interesting with Browne-Cave and Keenlyside showing accuracy and an impenetrable defence to defeat the Seattle pair.

A three-game triumph over H. Morrison gave Charlie Luxton the men's single consolation title. Both were local players. The scores were 24-22, 21-19, 21-17.

At the close of the tournament, Don McClure, president of the Victoria Table Tennis League, under whose auspices the tournament was held, presented the trophies. Previous to the presentation he paid tribute to the work of the committee responsible for the meet, thanked all the referees and scorers and congratulated the newly-crowned champions.

Battle to Tie For Milton Cup

Victoria City and Saanich Football Teams Draw 3 to 3

Victoria City and Saanich Thistles played on through overtime into half-darkness at the Athletic Park on Saturday afternoon to face the prospect of meeting again to decide the Milton Cup soccer honors, after a 3 to 3 tie game marked by freak scoring.

Battling through the second half of the game, the Thistles broke down a 3 to 1 lead on the part of the city, and held their position firmly from that point on.

The first goal of the game came within two minutes of the kick-off, with George Payne scudding down the right wing to slip the ball into the Thistles' net so suddenly that Chalmers, defending goalie, had barely time to notice that a melee at the other end of the field had broken up.

The Thistles had been playing with ten men at the start of the game. Immediately after the goal Stoffer came on to take the right wing.

FIRST HALF QUIET

The first half of the game saw no further scoring, with the Thistles holding the play well in opposing territory for the greater part of the time, and with the action falling off into long-range kicking rather than close-quarters work. There were only occasional outbursts by either side, with Payne coming near scoring a second time for the city, and Sage returning the compliment on behalf of the Thistles.

Brandow and Halkett kept up the City's offensive, which usually took the form of spurts straight down the field from their own half.

GOAL OPENS PERIOD

The second goal of the game was chalked up three minutes after resumption of play, when Brandow, City centre forward, took the ball from Peers, who had replaced Moore at inside left, and slipped it neatly past Chalmers.

With a score of 2 to 0 standing against them, the Saanichmen took the offensive, and fifteen minutes later in a melee around the City goalmouth, Leggett headed the ball to Crowe, who in turn headed it into the net.

REPLY IN HALF-MINUTE

But the townsmen were not at all disgruntled, and a bare half-minute later, Brandow had shot down the field from the kick-off and left Chalmers gasping with the ball in the net.

Then Leggett, Thistle centre-half, went into action, and on an excellently placed corner from Stoffer, slipped the ball off the City posts, bouncing it off Robbins' side.

LEGGETT REPEATS

Seven minutes later Stoffer placed a corner close in to the City goalmouth. Rowe, the defending goalie, knocked it out, and Leggett repeated his previous shot to tie the score.

From that point on the game became a close hand-to-hand battle, with personal fights threatening to break out between opponents on more than one occasion, and time was reached ten minutes later after the tie goal with further scoring.

In the thirty minutes' overtime period the City took the offensive, but the Saanichmen proved quite capable of holding off the attack in the falling darkness until the final whistle blew.

Line-ups were as follows:
City: Rowe; Moody, Roper, C. Robbins, G. Robbins, Roade; Halkett, J. Payne, Brandow, Moore, C. Payne; Peers.
Thistles: Chalmers; Ealer, Harper; Williams, Leggett, Speller; Sage, Crowe, Gent, Myles, Stoffer.
J. C. "Scotty" Dowds was referee.

VICTORIA J.B.A.A. Beaten 18 to 11 By Vancouver Fifteen; Navy Whips Scottish to Enter Leadership Tie With Rowing Club

Beaten 18 to 11 by the combined forces of the Occasionals and the Vancouver Rowing Club in the intercity exhibition game on Saturday, James Bay Athletic Association faced another hurdle to their city championship aspirations today. While they were absorbing the defeat on upper Macdonald Park pitch, the steady Navy fifteen, flashing intermittent sparks of brightness, beat the Canadian Scottish 14 to 0 on the lower pitch to climb into a first half leadership tie with the Bays.

Both the Navy and the local rowing club have won two games and lost one in the city series. They will play-off Saturday for the first-half title.

The J.B.A.A. defeat at the hands of the combined Vancouver squad was largely the local side's own fault. The team made errors at just the right time for the visitors after coming within two points of Vancouver's lead at the beginning of the second half.

Vancouver swung through on a smart-passing movement to open the scoring. "Rusty" Goepel going over the flag. Jenion converted beautifully to put the visitors ahead 5 to 0 a few minutes after the start.

Seventeen minutes from the first whistle Fleming slipped through the Vancouver backs to make an opening for Vic Painter, who went over near the posts. Victoria lost the conversion kick when Referee Benny McMillan ruled Brown had placed the ball before raising it when Vancouver charged.

OVER AGAIN

Snake-bitten Roxborough opened up another Vancouver run, passing to Goepel, who threw to Tolling on the wing. Tolling gained and passed inside to Goepel, who went over for the second Vancouver try. Jenion's kick was good and the score read 10 to 3 for the mainlanders.

Vancouver kept up the pressure, penning the Bays in their own twenty-five yard territory. Simpson came through to take out Mitchell on a run that looked billed for a touchdown and McInnes finally relieved.

The visitors stayed on the attack until the interval, but could not add to the score.

Burns lost the ball as he crossed the Vancouver line on a dribble immediately after the rest period and the visitors swung back from the twenty-five yard kick.

The local scrum started to get the ball and appeared to have the game in hand when Fleming raced through the Vancouver backfield from the twenty-five yard line on a trick passing play with "Buz" Brown and put the ball down near the posts. McInnes converted and the score read 10 to 8 with Vancouver leading.

The Bays blocked sporadic efforts by mistaking backs to break through and after pressing for several minutes, gave Vancouver a try on fumbles by Simpson and Langdon. Simpson muffed Bert Barrett's kick from the visitors' twenty-five and passed back to Langdon, who let the ball get away from him. Jack Paterson pounded through, picked up the loose ball and ran over for a try. The kick failed and the score read Vancouver 13, Victoria 8.

SIMPSON SCORES

The Bays scored minutes later when Simpson broke through to fall on a short punt over the Vancouver line from a five yard scrum near the flag. The kick failed.

Vancouver closed the scoring minutes before time. Roxborough opened a three-quarter movement which sent the ball out to the wing on Victoria's twenty-five. Tolling threw inside to Goepel, who relayed the pass to Rush. Rush bustled through to score near the posts and Jenion converted to make the count 18 to 11 for the visitors.

Goepel left the field with a minor injury just before the whistle as Victoria returned to an aggressive but futile attack.

The teams were:
Vancouver—Jenion, Tolling, Goepel, Rush, Mitchell, Roxborough, Barrett, Lungley, Allen, Wood, King, Paterson, Ives, Hanbury and Phillips.
Victoria J.B.A.A.—McInnes, Painter, Fleming, Brown, Langdon, Halkett, Stipe, Peard, Mair, Croft, Rutan, Tobin, Simpson, Usher and Burns. Gaunt replaced Painter in the second half.

NAVY WINS

On the lower pitch the Navy fifteen took matters into their own hands from the start in their match against the Scottish. Their steady play throughout was marked by flashes of brilliance both in the forward line and in the backfield, adding a spark of interest to a game in which fumbles were frequent.

Alabama and Louisiana State Now Favored For Rose Bowl Selection

New York, Nov. 23.—Stunned by upsets of most of the nation's proud gridiron clubs, the fans are groping around for the answers to two big questions this week.

Which teams will play in the Rose Bowl, January 1, for the mythical national title? And who will win the Army-Navy game?

The annual service classic at Philadelphia Saturday signals a thrilling season's end, although scattered games will be played through December.

The south probably will settle one-half of the Rose Bowl question while Washington, the current leader, and Washington State will fight it out Thursday for the Pacific Coast Conference title and the western nomination.

With Marquette beaten 13 to 0 by Duquesne and Fordham held to a 7 to 7 tie by Georgia, Alabama and Louisiana State are the ranking candidates. Even before Northwestern took its 26 to 6 thrumping from Notre Dame, there was hardly any likelihood the Wildcats would consider an invitation.

The southeastern conference leaders, both tied and undefeated, are favored to come through this week's games handily. Alabama concludes its conference campaign Thanksgiving Day against Vanderbilt. L.S.U., which warmed up its offense in a 93 to 0 rout of Northwestern Louisiana, plays its traditional rival Tulane, which displayed power in trimming Sewanee 53 to 6.

Southern critics were inclined to rate L.S.U. the more highly of the two, but indications were that Washington, with an old Rose Bowl beating in mind, would lean toward Alabama should the Huskies come through in the west.

Sarnia Imperials Headed For Title

Whip Toronto Balm Beach 11 to 7 For Ontario Union Grid Crown and Loom As National Champs; Regina Rough Riders Appear Out

Sarnia Imperials, champions of the Ontario Union for the sixth consecutive time, were tagged today for the Canadian football championship that Regina Rough Riders appeared unlikely to challenge for. Imperials were in the eastern finals, ready to battle the Big Four champions.

Victors by 11 to 7 over Toronto Balm Beach in London Saturday, the Imperial army found its path to national honors apparently blocked at only one point. Ottawa Rough Riders and Toronto Argonauts were still in the running. They will decide the Big Four title next Saturday.

Rough Riders, once more depending on Tiny Herman to kick decisive points, outscored Argos 5 to 1 before a crowd of 10,000 in Ottawa and will take a four-point lead into the second game of the home-and-home series in Toronto. Herman place-kicked a field goal and missed another which went for a single.

TORONTO VARSITY WINS

University of Toronto won the intercollegiate title with a brilliant 11 to 3 conquest of Queen's before 17,000 in Toronto. The win for Warren Stevens' team ended a two-year reign of Ted Reeve and his triolet. But Varsity was not a contender for further honors.

There was no likelihood that the Intercollegiate Union would favor Varsity entering the Canadian Rugby Union playdowns. Queen's went on without authority a year ago and were given a severe trouncing by

PAYROLL TAX IS HELD VALID

New York Unemployment Insurance Measure Ruled Constitutional by the U.S. Supreme Court

Associated Press
Washington, Nov. 23.—The New York unemployment insurance law, which taxes employers to pay benefits to those out of work, was held constitutional today by an evenly divided vote of the United States Supreme Court.

Announcement of the court was made briefly.
How the justices were divided was not announced, but the vote was 4 to 4.

The New York Court of Appeals had upheld the insurance legislation.

IN OTHER STATES
Fourteen other states and the District of Columbia have similar laws. The states are: Alabama, California, Idaho, Indiana, Massachusetts, Mississippi, New Hampshire, New York, Oregon, Rhode Island, South Carolina, Texas, Wisconsin and Utah.

Under the New York measure, employers of four or more persons, with certain exceptions, are required to pay a tax on payrolls which is to be placed in a pool to aid the unemployed.

While the legislation was supplementary to an extent to the federal Social Security Act, the latter statute was not involved in the litigation decided today.

Body From Lost Ship Is Found
Canadian Press
Owen Sound, Ont., Nov. 23.—Body of Capt. Norman McKay, master of the motorship Hibou, who went down with the ship in Georgian Bay Saturday, was recovered today. Bodies of five of the seven victims have not been found.

The body of the captain was discovered in shallow water near shore.

An increase in the number of dwellings, including one family home, duplexes and apartment houses, is shown this year when figures are compared with those of 1935, city building inspector's department officials announced today. This year to date permits have been taken out for thirty-five dwellings against twenty-five for the whole of last year. P. Palfrey was given a permit today for a \$2,000 four-room stucco house at 25 Lewis Street, while last week A. J. Moreley was given one for a \$2,500 dwelling at 2842 Jones Street and earlier in the week another was issued for a \$2,000 home at 1525 Jubilee Avenue.

The Victoria branch of the Canadian Pensioners' Association of the Great War will hold its monthly meeting on Friday evening at 8 o'clock.

Rush Film Here By Speed Boat

In order that a matinee crowd should not be disappointed, the St. Princess Alice stopped off Ten Mile Point and dropped a package containing the film "Valse Time in Vienna," to a speed boat, which rushed it to the Oak Bay Theatre this afternoon.

The picture missed the train in Winnipeg and did not land in Vancouver until this morning. Ray Castle, manager of the Oak Bay Theatre, considered flying the film over, but learned from Ernie Eys, local pilot, that the ceiling was too low.

He asked the C.P.R. to stop the ferry off Oak Bay. This they consented to, and he obtained a speed boat from the Oak Bay boathouse, piloted by Harry Bowker and C. V. Alleveldt, of Foreign Films Ltd.

The St. Princess Alice arrived at Ten Mile Point about 2:30 o'clock, forty minutes before the time the film was to start showing.

Want Traffic Lanes Obeyed
In the interest of proper traffic control, Police Chief Hestley this morning requested motorists to take note of traffic lines as painted in white at the corner of Blanshard and Yates Street. Proper observation of these lines, he said, would materially assist in speeding traffic at corners controlled by signal lights.

Half of the streets leading into this intersection are divided into three lanes. The right lane is intended solely for traffic intending to make a right turn.

The centre and left lanes may be used by traffic proceeding straight through the intersection, while the left lane is intended for motorists about to turn left.

When drivers intending to turn left use other than the left lane they have to cross traffic before making the turn, and it is this which causes slowing up of traffic behind.

Grand Forks C.C.F. Goes to Connell
Grand Forks C.C.F. Club, No. 397, has disbanded and its members will support Rev. Robert Connell's Social Constructive party, according to a letter received at Mr. Connell's office here today from Mrs. M. Whitehead, secretary of the club. She says the members are dissatisfied with the C.C.F. platform, and will hand back their charter.

The Social Constructive office also announced today that Jack Price, M.P.P., Vancouver East, will speak from GJOR, Vancouver, from 7:30 to 7:46 o'clock Wednesday night on a review of the recent Legislative session.

Varied Concert By Kayla Mitzel
The programme to be given by Kayla Mitzel, young violinist, at the Empire Theatre tomorrow evening will be as follows:

Sonata in E Major (Handel), Chaconne, for Violin, alone (Bach), Concerto in D (Paganini), Quasi Ballets (Suk), Appassionata (Suk), Nocturne (Chopin), and Zigeunerweisen (Sarasate).

Jay Rubinoff will be at the piano.

Left Fortune To Distribute Books
Associated Press
London, Nov. 23.—William Henry Baxter, wealthy writer on social hygiene, believed his writings were so important that when he died recently at the age of eighty-six he left almost his entire fortune (about \$1,335,000) to be used for the publication and distribution of his books as widely as possible.

Baxter described his works as "more important than any form of our present-day civilization or religion."

Tientsin, China, Nov. 24.—Japanese soldiers early today surrounded and disarmed a company of mutinous members of the Chinese Peace Preservation Corps and released the captives they had taken from a train near Tangshan Saturday.

JOBLESS GET FARM WORK

Fifteen Placed in B.C. Under New Relief Measure

Seventy-five jobless have applied for jobs on farms in British Columbia under the new Dominion-provincial farm placement scheme, and of these fifteen have already been placed, relief headquarters here announced today.

Most placements will be made in the Okanagan and the lower mainland, where the farmers are applying for this type of help.

Under the scheme farmers get \$5 a month toward each man's board. This man himself gets \$7.50 a month providing he works until the end of next March.

Relief officials said some trouble had been experienced with farmers who wished to replace present employees with farm placement help or to take these men instead of employing regular labor. These things will not be tolerated, however, as the province's agreement provides specifically against them, it was stated.

STEEL TRADE JUMPS AHEAD

Great British Firms Deny Revival Primarily Due to Arms Building

Canadian Press
Sheffield, Yorkshire, Eng., Nov. 23.—Several of the largest employers of labor in this iron and steel centre are insistent in their denials that the remarkable revival of trade is due primarily to the rearmament programme.

The commercial work of one big firm alone increased 35 per cent within the last twelve months. Another firm's payroll has risen 117 per cent.

The government admonishes manufacturers not to sacrifice civilian for military work. Nevertheless it is obvious the rearmament drive has produced a profound effect on Sheffield's staple industries.

Col. R. Tozer who, as mastercutler of Sheffield, is a kind of official head of the city's basic industries, addressed some significant remarks to a meeting of Old Contemptsibles.

"I am in London several times a week and I meet very interesting people in the government," he said. "From all I get the same story: That given a few months longer—and I hope and pray that we shall be given that unless some madman in the cabinet lets off a squib—we shall not be taken unawares as we were last time."

He added the "horrible, complicated" Lewis gun had been entirely superseded by the Bren gun, which the newest recruit could learn in an hour or two.

Respirators had been developed, proof against every known gas or any evil resultant from gas. There was nothing to fear from gas if soldiers and civilians only carried out orders. London already was organized against an air attack.

The same organization was proceeding elsewhere. Col. Tozer said he was amazed to find the research in this direction had been going on for years without anyone knowing about it.

H. Charlesworth To Return to Toronto
Canadian Press
Ottawa, Nov. 23.—Hector Charlesworth, fourth chairman of the Radio Broadcasting Commission, which ceased to exist at midnight, November 1, will shortly give up residence in Ottawa and go to Toronto, where he hopes to re-establish himself in journalism.

Hon. C. D. Howe, Minister of transport, has written to Mr. Charlesworth as follows: "Please allow me to express, on behalf of the government, our appreciation of the part you have played in developing the national system of radio broadcasting in Canada."

Dr. H. Anderson Sidney Speaker
Sidney, Nov. 23.—"Too much sympathy has been spent upon our youth," declared Dr. Henrietta Anderson, president of the Provincial Normal School in an address before the North Saanich Social Club at its annual dinner here.

Youth had suffered as a result of the depression, but he had life before them, while thousands of middle-aged men had lost their all, and had no opportunity to come back, the speaker said. We would all like to improve our station in life—but is an infinitely greater thing to change ourselves, said Dr. Anderson, who spoke on "A Philosophy of Life."

High praise was given to the purpose of the new school curriculum, but great care would need to be exercised against making education too soft.

J. Anderson, president of the club, was chairman. The evening's programme was augmented by Miss Enid Cole and a class of students of dramatic art.

PUBLISHER FACES TRIAL
St. Hyacinthe, Que., Nov. 23 (Canadian Press).—Gerard Brady, publisher of a weekly newspaper in this town, forty miles below Montreal, must stand criminal assizes trial on a charge of defamatory libel against Hon. T. D. Bouchard, opposition leader in the Quebec Legislature. Brady was committed after preliminary hearing Saturday.

NEWS IN BRIEF

The soloists will be Miss Patricia Swift, Mrs. Jack Barraclough, Frank Tupman and John E. Pacey. Admission will be by programme only which can be obtained at the Memorial Hall, Fletcher Bros' Music Store or from any member of the choir or orchestra.

Shanghai boasts a new department store that is air-conditioned, and has escalators, mail-order department, and translators.

FACES SEVEN FRAUD COUNTS

Insanity May Be Plea For William P. Bunt, Counsel Tells Court

A plea of insanity on behalf of William P. Bunt, who faces seven charges of attempting to obtain and of obtaining goods and cash from Victoria merchants by using bogus cheques, was submitted by Arthur Patton, defence counsel, in the City Police Court this morning.

After he had pleaded guilty to three charges last week of obtaining and attempting to obtain cash and goods from three firms, four more charges were read against Bunt this morning.

The first charged him with obtaining \$35 in cash from Ray's, the second with obtaining \$4.50 in goods and \$7.50 cash, and the fourth, \$6 in goods and \$6.50 cash.

Plea was resorted to these charges when Mr. Patton requested an adjournment of until Wednesday, telling the court he expected by that time he would have information which would bring forward a plea of insanity.

URGES WAGES BE RESTORED
Canadian Locomotive Engineers' Spokesman Presents Employees' Case at Inquiry

Canadian Press
Montreal, Nov. 23.—Immediate restoration of wages to union scales was urged today before the board investigating railway wages by Howard B. Chase, assistant grand chief engineer of the Brotherhood of Locomotive Engineers.

The public hearing opened under the chairmanship of Mr. Justice A. K. MacLean, president of the Exchequer Court of Canada. Fred Brancotte of Oakville, Ont., representing the men, and W. Sanford Evans of Winnipeg, representing railway managements, completed the board.

Mr. Chase, presenting the brief of the employees, declared restoration of full union wages was "a matter of social and economic progress for the Dominion as a whole. The now existing wage deduction agreements should and must be terminated."

ONLY ONE QUESTION
He said the only issue before the board "involves the sole and specific question of terminating the now existing wage deduction agreements."

and the board was not requested nor established to consider any request either for an increase or decrease in basic wage rates.

The 10 per cent deduction in basic wages of United States railroad workers was fully restored April 1, 1935, Chase said.

The dispute, he said, involved about 100,000 railway workers in Canada, and on the basis of the average family of five it had direct bearing "on the purchasing power, health, happiness and comfort of about 500,000 men, women and children scattered throughout every part of the Dominion."

He asked elimination of the full deductions from the wage cheques of employees on Canadian-owned railways operating in the United States and on United States railways operating in Canada.

Railway employees, he said, had suffered losses other than wage reduction as a result of total loss of employment, reduced income of those working on a part time basis, and demotion to lower rated positions.

LABOR GROUPS NEARING TEST
Associated Press
Tampa, Fla., Nov. 23.—The American Federation of Labor went on record today in favor of the O'Mahoney industrial licensing bill, an NRA substitute.

The bill would compel all corporations doing an interstate business to obtain a federal license and to conform to government-fixed wage and hour standards.

The action came as outspoken threat of a rival organization faced federation leaders nearing a showdown on future relations with John L. Lewis's rebel unions.

Charles P. Howard, secretary of Lewis's Committee for Industrial Organization, said the insurgents would be forced to set up a rival organization if the Federation's convention backed up suspensions of the rebel unions.

"We will be driven to set up more than a committee without a constitution, without dues and without affiliation," he said.

"It will mean a full organization and that will mean a fight."

NO ITALY SHIPS IN BLOCKADE
Associated Press
Rome, Nov. 23.—Italy will give "moral support" to any blockade of Spanish ports by the insurgent regime, it was stated authoritatively tonight.

Responsible sources added, however, that Italy would not extend material or military help to the insurgents, and would continue to pursue a policy of non-intervention.

Obituary

ALICE HELENA BROWNLEE
Many sympathizing friends attended the last rites held over the remains of Mrs. Alice Helena Brownlee Saturday afternoon, Rev. Dr. G. B. Switzer, officiating. The hymn, "Abide With Me" was sung. The casket and hearse were banked with beautiful floral tributes. The following acted as pallbearers: R. Smith, B. Savage, A. Hood, C. Goodwin, D. Miller and G. A. Rudd. The remains were laid at rest in the family plot in Ross Bay Cemetery.

MARY M. CUNNINGHAM
A large number of sorrowing friends attended the funeral of Mrs. Mary M. Cunningham Saturday afternoon, Rev. Robert Connell conducting an impressive service. The only hymn sung was "Abide With Me." An abundance of beautiful flowers was received.

The following were the pallbearers: C. H. Tait, Dr. E. S. Tait, Dr. E. Tait, D. S. Tait and J. L. Tait. The remains were laid at rest in St. Michael's Cemetery, Royal Oak, Rev. Canon S. T. Wickens conducting the committal rites.

JAMES McNEILL
At an early hour this morning, James McNeill passed away at the family residence, 1108 Tolmie Avenue, aged fifty years. He was born in Three, Argyleshire, Scotland, and had been a resident of this city for twenty-six years. There survive, his widow, one son, Hector, and a daughter, Anne, at home, his parents, two brothers and two sisters, all of Three, Scotland. Mr. McNeill was a member of Victoria Lodge No. 1, I.O.O.F., under whose auspices the funeral will take place on Wednesday afternoon at 2 o'clock in the Sands Mortuary Chapel. The remains will be laid to rest in the Colwood Burial Park.

BETTY ROY DAVIDSON
On Saturday at the Royal Jubilee Hospital there passed away at the age of twenty-four years, Miss Betty Roy Davidson. Miss Davidson was born in Scotland, coming to Canada as a child, and had resided in Vancouver for a number of years, and for the last two years had been a resident of Victoria. She leaves her father, William Davidson, and one sister, Mrs. R. Dierks, both at the family residence, 4538 Pelling Street, Vancouver. Funeral services were conducted in the chapel of the Sands Mortuary Chapel this afternoon at 3:30 o'clock. Rev. Clem Davies officiated and the remains were laid to rest in the Royal Oak Burial Park.

Morgan Buildings To Be Modernized
Extensive alterations and improvements are now being planned for the southwest corner of Douglas and Johnson Streets, in the premises now occupied by three stores. These shops will be rebuilt into one large modern store and will be one more step in the modernization of the W. L. Morgan buildings on Douglas Street.

The new premises will be occupied by O. H. Dorman, one of the present tenants. Dorman's, established in Victoria in 1883, and it again necessary to enlarge their premises to adequately care for their increasing business.

"Business in Victoria has taken a definite upswing and should continue to improve," said Mr. Morgan, "especially if our elected officials will cease spreading rumors of bankruptcy and stay throughout the country, stay home and co-operate 100 per cent in a concrete demand for lower taxes."

REVENUE UP WITH TRADE
Era of Balanced Federal Budgets Foreseen By Hon. J. L. Ilsey

Canadian Press
Montreal, Nov. 23.—Hon. J. L. Ilsey, National Revenue Minister, left with Montrealers today the prophecy that Canada will again enter the era of balanced budgets if present progress continues and expenditures are kept "within bounds."

The federal minister, speaking at a dinner in connection with the opening of Montreal's new national revenue building, forecast an increase of some \$600,000,000 in Canada's 1936 national income compared with 1935.

He said the increase was closely related to revived export trade and added the Dominion's total exports would probably exceed the \$1,000,000,000 mark this year.

The minister said national income for 1935 was estimated at \$4,086,000, and the 1936 figure was estimated at \$4,686,000,000 which, he added, indicated the national income of this country was rapidly increasing. There must also be increased import trade, he declared.

Canada's total trade had increased from \$1,349,000,000 during the twelve months ended October 31, 1935, to \$1,591,000,000 during the twelve months ended October 31, 1936, to \$1,591,000,000 during the twelve months ended October 31, 1936, the minister said.

Ottawa, Nov. 23.—(Canadian Press).—Unless the European situation affects the future adversely, Canada may look forward to a period of unprecedented prosperity, Hon. J. C. Elliott, Postmaster-General, told the annual meeting of the Eastern Ontario Liberal Federation here at the week-end.

Barcelona, Nov. 23.—The dream of Emma Goldman's lifetime is coming true in Catalonia. The longtime social campaigner is passing through dozens of Catalan villages where "anarchist communism" is being put in effect. She defended the term to mean voluntary communism as against the state-imposed variety she saw in Russia.

European War Scare Bings Selling On Main Street Market

Associated Press
New York, Nov. 23.—Another European war scare today contributed to selling in the stock market and numerous leaders fell back fractions to about 7 points.

While there were quiet intervals as support appeared for some of the more depressed issues, the ticker tape occasionally lagged behind floor dealings when offerings were at their height. Transfers were around 2,200,000 shares.

Markets in London, Paris and Amsterdam were also sharply lower on a renewal of fears of military repercussions from the Spanish situation.

Although affairs abroad were seen as the main reason for the break in the New York list, analysts felt a corrective reaction was due in view of the lengthy and virtually interrupted advance. The domestic business picture was still bright.

Bonds followed stocks at a more leisurely gait. Commodities were mixed. Foreign currencies turned up briskly in terms of the dollar.

Among the principal casualties were U.S. Steel, Bethlehem, Youngstown Sheet and Tube, Chrysler, General Motors and Montgomery Ward.

Up fractions to around 3 at their best were preference issues of American Woolen and Guantanamo Sugar.

The afterglow and push-up in the morning, but gave ground later. American Telephone was on top a point or so for a while.

Fractional Losses On Winnipeg Market AT NEW YORK

Associated Press
New York, Nov. 23.—The bond market slipped a cog in quiet trading today.

United States government issues showed loss of around 1-32 to 4-32 of a point by mid-day.

The foreign division was colorless with small declines ruling in Japan 5 1/2, Rome 6 1/2, Peru 6 1/2 and Buenos Aires 4 1/2 to 4 3/8. A rise of a point or so in Abitibi contrasted with a similar drop in Milan 6 1/2.

Winnipeg, Nov. 23.—Bearishness tinged trade news in the Winnipeg Grain Exchange today, leading to declines in wheat prices. Values closed 1/2 to 1/4 cent lower. November at \$1.07 1/2, December \$1.05 1/2, May \$1.07 and July \$1.03 1/2.

Week-end export sales of 800,000 bushels of wheat proved insufficient to offset scattered selling induced by private estimates. Argentina would produce 260,000,000 bushels of wheat this year. Previous estimates had placed the probable yield at 240,000,000 bushels.

Unconfirmed reports were that the Canadian Wheat Board was offering wheat for sale in the pit.

Bearish also were last week's reports of wheat. The total of 9,442,000 bushels compared with 12,533,000 bushels cleared from all sources the previous week. Canada exported 5,000,000 bushels, compared to 6,044,000 bushels the week previous.

Liverpool closed 1/4 d to 1/2 d lower, while fractional losses were the rule at Chicago and Minneapolis. Buenos Aires was steady.

Cash grain—spreads were firm. Coarse grains were inactive.

Week-end export sales of 800,000 bushels of wheat proved insufficient to offset scattered selling induced by private estimates. Argentina would produce 260,000,000 bushels of wheat this year. Previous estimates had placed the probable yield at 240,000,000 bushels.

Unconfirmed reports were that the Canadian Wheat Board was offering wheat for sale in the pit.

Bearish also were last week's reports of wheat. The total of 9,442,000 bushels compared with 12,533,000 bushels cleared from all sources the previous week. Canada exported 5,000,000 bushels, compared to 6,044,000 bushels the week previous.

Liverpool closed 1/4 d to 1/2 d lower, while fractional losses were the rule at Chicago and Minneapolis. Buenos Aires was steady.

CALGARY NOT TO CUT INTEREST OF JOHN DORE

Associated Press
Calgary, Nov. 23.—Calgary has not the constitutional power to reduce interest rates to any single bondholder Premier Aberhart advised J. M. Miller, city clerk, by letter today.

The Calgary council had suggested a reduction in interest on city debentures now held by the province. The government holds a substantial amount of Calgary debentures.

Recently the city of Edmonton reduced the interest rates on its bonds held by the government.

READY FOR NINE DUELS

Associated Press
Budapest, Nov. 23.—The Budapest court of honor ordered an overnight postponement today for the first of Dr. Franz Sarga's nine duels, on the grounds the elaborate formalities were incomplete.

Budapest, Nov. 23.—"Me against nine" Sarga (as they call him now in Budapest), donned a derby and strode today from his modest flat to a gymnasium for a final dress rehearsal of two days' wholesale dueling.

A mite of man, but bouncing with energy, Dr. Franz was stopped every few yards en route to the gymnasium by dueling-loving Hungarians. They told him to "be brave."

Plaintiff Scores Police Inspector

Associated Press
Toronto, Nov. 23.—Miss Mary Florence Small, plaintiff in action to upset the will of the late Mrs. Thomas Small, today said she had never gone to police with the story of Mrs. Small's alleged confession in her husband's death.

"Mitchell (Inspector Austin Mitchell of the Toronto police) got lots of money from my brother's estate and did nothing," said Miss Small, claiming that she had been deceived by John Doughty, Doughty was the late Ambrose Small's secretary.

The trial, with most of \$200,000 at stake, went into its second week today. Miss Small seeks to upset the will of Mrs. Small on the ground she obtained the estate of Ambrose Small, Toronto theatre magnate, her husband and the plaintiff's brother, who disappeared in 1919, by fraud, forgery and being party to his alleged murder.

No Retreat On Power Scheme

Associated Press
Toronto, Nov. 23.—Premier Hepburn asserted today the Ontario Legislature was "supreme" and that its full power would be used, if necessary, to nullify the effect if the Privy Council in London should decide the Ottawa Valley Power Co. Ltd. had a right to sue the Ontario Hydro-Electric Commission for non-performance of contract.

If the Privy Council should confirm last week's decision of the Ontario Court of Appeal, which decided the company had a right to sue and that sections of the Ontario Power Act, 1935, were invalid, Mr. Hepburn said he would utilize the Legislature's power to reaffirm legislation cancelling contracts with the company.

JAPAN REDUCES ARMS OUTLAY

Associated Press
Tokio, Nov. 23.—At a time when most European nations are increasing armament expenditures, Japan will reduce hers by approximately 200,000,000 yen (\$3,200,000), budget estimates disclosed today.

Estimates for the fiscal year 1937-38 reduce the army's expenditure to \$205,000,000 and the navy to \$194,480,000.

The budget estimates will be submitted to the cabinet Friday.

FLOODS EASE IN NORTH B.C.

Associated Press
Prince Rupert, B.C., Nov. 23.—Rapidly receding waters of the swollen Skeena River near here today raised hopes flood conditions were on the wane in northern British Columbia.

With the Skeena rapidly nearing its normal water mark Canadian National rail officials expected to resume service between here and Alberta some time today. A train service was disrupted when a bridge at Salsburg, sixty miles east, was washed out.

Considerable flood damage has been done in Bella Coola, 200 miles south, where the situation was more acute. Five bridges in the district were reported swept away and several culverts washed out and one town isolated by the suddenly swollen Bella Coola River.

Bella Coola, a fishing town of 800 population, was saved from flooding when a bridge above the community was dynamited. Hagensborg, ten miles up river was isolated when the flood waters cut off the highway and communication facilities.

First word of the Bella Coola flood conditions was brought here late Saturday by the steamer Cardena which had called at the mid-coast settlement.

Verily, Women Must Be Versatile

Says Men Demand Too Much of Water

THE TROUBLE WITH A WOMAN coming up to a man's ideal is that he demands that she shall possess two entirely different personalities, and few women are that versatile. She could be one thing or the other and make a hit with him, but when she tries to fill both roles simultaneously she is likely to fall between the stools with a dull resounding thud.

Now take the dilemma of the girl who wishes to please the boys. What is the poor thing to do? She must be a good-looking whether nature made her that way or not, but she mustn't show that her complexion is only hers by right of purchase and that her golden locks came out of a bottle.

She must be a swell dresser, but she mustn't look so much like a million dollars that it sets a lad to figuring on her upkeep, and makes a poor boy feel that he dares not ask her to ride in his rattle-trap auto or eat a hot-dog with him.

She must be gay and cheerful, but not one of the laughing hyenas who are always having hysterics of mirth over nothing. She must be lively and vivacious, but not a chronic giggler, or one of the kind who are always jumping around like a monkey on a stick.

She must like to step out and go places, but she must not be one of the gadabouts who comes down with her hat on when a chap calls, and asks: "Where do we go from here, and-ent?" She mustn't haggle over the price of a dinner or theatre seats or street-car fare and make him feel cheap, but she must go light on his pocketbook and not have more than one birthday a year.

She must have a keen line of conversation, but she mustn't talk too much, and she must confine herself to topics in which a boy is interested. She must listen with a bright, alert expression while a boy tells her all about his job, and what he said to the boss and the boss said to him, and how many miles he made in his automobile, and what a woe he had in college, but she mustn't bore him by telling him about her work and recalling any reminiscences of her school days.

She must be intelligent, but she must never let any man find out how really clever she is. She must be good at all sorts of sports and play bridge and tennis and golf well enough to keep a boy interested, but she must never play well enough to beat him. She must be independent and able to take care of herself, but she must also be able to flop on a man's shoulder and make him feel how big and strong he is and how superior to the little woman.

She must have a sense of humor so she can appreciate the points of a good story and laugh in the right places when a man tells one, but she must never, never, cap a man's good story with a better one of her own. When she meets a boy she must show him that he has strangely interested her, but she mustn't grab at him like a hungry dog at a bone.

When a boy pays her any attention she must be appreciative, but she mustn't be so grateful that she shows that she is passed over by the other boys and has few dates. She mustn't be standoffish, neither must she be possessive. For no man wants a woman to publicly proclaim that she has him on the leash.

She mustn't be a prude, neither must she be the kind of a girl whom any man can kiss and maul. She must do the courting, but camouflage it so deftly that the man thinks that he is the pursuer instead of the pursued.

All of these and a hundred other contradictory things men demand of women. What wonder that so many girls fail to have dates, and so many husbands are disappointed in their wives.

Uncle Wiggily's Picture Book

By HOWARD E. GARIS

"No! No! I won't do it! So there!"

"Bang!" the kitchen door was slammed shut.

"My goodness! What's all this?" cried Uncle Wiggily of Nurse Jane Fussy Wussy, who stood in the middle of the kitchen looking sadly at the door which had been shut with such a bang. "Who did that, Miss Fussy Wussy?"

"Buster did it," answered the mustered lady housekeeper.

"Was Buster the one who said he wouldn't do it?" asked the jolly old rabbit, who was sitting on the kitchen floor.

"Yes, Buster said he wouldn't go to the store for me," said Nurse Jane.

"That was very impolite of Buster," said Uncle Wiggily, slowly twinkling his pink nose. "He always twinkles his pink nose when he is thinking of a way to punish Buster for being so impolite to Nurse Jane."

"I must not only punish him," said Nurse Jane, "but I must teach him never to be so impolite again."

"You said punish him," spoke Nurse Jane.

"Do you mean you are going to whip him?" asked Uncle Wiggily.

"Oh, no," Uncle Wiggily replied. "There are other ways of punishing impolite little bunnies than whipping them. I taught some of these ways in my summer school. But Buster seems to have forgotten."

"Too bad," said Nurse Jane.

"Yes, it is too bad," agreed Uncle Wiggily. "Perhaps the Lady Mouse Teacher in the Hollow Tree School will give some lessons in politeness today. But if she doesn't I shall punish Buster."

"How are you going to punish him if you don't whip him?" asked Nurse Jane.

"I'll tell you in a moment," promised Uncle Wiggily. "But first, what do you want Buster to get from the store for you?"

"Just some sugar so that I may make a cake," said Nurse Jane.

"SUGAR FOR A CAKE"

"Oh, my goodness! Sugar for a cake and Buster wouldn't go for you! Shame on him! But very likely, he'll want some of the cake after it's baked, won't he?"

"I suppose so," sighed the mustered lady housekeeper. "I didn't exactly tell Buster I wanted the sugar for a cake. He didn't give me a chance. As soon as I asked him to go to the store and he hopped, slamming the door."

"I'll get the sugar for you," offered Uncle Wiggily kindly. "I'll give you the chance to have an adventure and I can get ready, at the same time, to punish Buster."

"You didn't tell me how you are going to punish him," Nurse Jane reminded Mr. Longears.

"I'll tell you. I am going to get a book, and put his picture in it. It will be my special picture book, not only for Buster, but for any other of my bunnies who may be impolite. I'm off now to get your sugar and my picture book."

"Tra la, la, la!" said Nurse Jane waving her tail at Mr. Longears and wondering what sort of a picture book he could get to punish Buster. Perhaps you are also wondering. Well, in the next story, which will be about Uncle Wiggily and the secret, you shall hear about it.

But please don't sit in the dining-room table try to ride on the back of the kitchen stool and fall.

HOROSCOPE

"The stars incline, but do not compel"

TUESDAY, NOVEMBER 24, 1936

Mingled good and evil planetary influences are discerned today. Astrologers warn against speculation and stress the value of advancing one's self-interest.

The morning hours are favorable to employers and executives who may be approached by those who seek employment or who ask favors.

Under this configuration it is likely to be more profitable to sell than to buy. Business should be exceedingly good with mainly holiday trade of general proportions.

This is a fortunate rule of the stars for editors and writers. Both newspapers and magazines will profit in the next few months, when there will be extreme interest in foreign news.

Portents of hostile gestures affecting the United States are forecast, and the news warn that agitation for a stronger air force for national defense will cause excited discussion in the coming session of Congress.

Quarrels may be readily brought about under this rule of the stars, which emphasizes all manner of selfishness. The young should practice self-control; they may learn lessons from their elders.

Strikes and labor difficulties are prognosticated. Surprising policies among members of university faculties may result in changes in leadership, the seers prophesy.

This evening may not be auspicious for theatres or places of amusement. The stars frown, whatever appeals to the emotions and love affairs appear to be under ban, or at least likely to be disappointed.

Persons whose birthdate it is have the augury of a year in which there may be financial perplexities, but work and business should prosper.

Children born on this day probably will be progressive, outspoken and strongly individual. Subjects of this sign succeed through their unusual mentalities.

Henry Thomas Buckle, historian, was born on this day, 1821. Others who have celebrated it as a birthday include Baruch Spinoza, philosopher, 1632, and Frances Hodgson Burnett, author, 1869.

Services to Honor Local Seafarers

Hope Event Will Become Annual One, on Sunday Nearest St. Andrew's Day; Houseflags Presented to Cathedral

An annual Thanksgiving service for seafarers will shortly be inaugurated by the Bishop of Columbia, the Dean and warden of Christ Church Cathedral for the Sunday nearest St. Andrew's Day, this year the event falling on November 29. It will form part of the evening service, beginning at 7:30 o'clock, and will be based on the special service used each year at St. Paul's Cathedral in London.

The sermon at next Sunday's service will be preached by Rev. J. W. Leighton, chaplain of the Mission to Seamen at Vancouver. It is desired to read out a "Roll of Honor," containing the names of all seafaring residents of Victoria and district, who have died since St. Andrew's Day last year. Relatives are asked to send in writing, such names to Major F. V. Longstaff, 50 King George Terrace, who is compiling the list.

MANY INVITED
There are numberless families in Victoria, Major Longstaff points out, who draw their substance from the sea, through working on ships, repairing ships, from shore office work and the other endless specialized professions which make for the safety and comfort of crews and passengers. All these are heartily invited to attend the service and to sit where they like, as there will be no special seats reserved.

The C.P.R. house flag, received by the late Bishop Schofield from Capt. C. D. Neroutos has been flown at sea and is now shipped on a staff on the west side of the organ. A new Canadian-Pacific Navigation Company flag was flown on the veteran Tees, now the Salvage Queen, and will be received by the Cathedral authorities at next Sunday evening's service and shipped by the side of the C.P.R. house flag.

All former officers of the old C.P.N. Company are asked to write to Major Longstaff, in this connection, as soon as possible.

Critical developments in the Spanish war brought a shower of questions. Had Mr. Eden been informed that General Franco's forces, the insurgent leader, intended to blockade Spanish Mediterranean ports? Would British shipping be protected from interference on the high seas? NO ASSISTANCE

"The policy of His Majesty's government," Mr. Eden replied, "is to take no part in the Spanish war and to give no assistance to either side in the struggle. In pursuance of this policy His Majesty's government, however, has been considering the importation of arms into Spain by sea and the problems arising from this."

"His Majesty's government has not so far accorded belligerent rights at sea to either side in the Spanish struggle and it has no present intention of according such rights. His Majesty's ships will, if necessary, protect British merchant ships on the high seas against interference by ships of either party during the conflict in Spain—interference that is, outside the three-mile limit."

SHIP COMPANIES WARNED

"It is not the intention of His Majesty's government that British shipping should carry war material from any foreign port to any port in Spain. In order to make this as effective as possible in the circumstances the government intends to introduce legislation, rendering the carrying of arms into Spain illegal. I take this opportunity of warning all British shipping accordingly."

"What is included in war material," pressed Col. J. C. Wedgwood, Independent. "Why should British ships be handicapped?"

The question brought a murmur of Conservative dissent.

"It is not a question of hand-

President Jackson, Niagara and Empress of Asia Will be Here This Week—Greek Freighter to Sail This Evening—Anglo African Called Here for Australia Mails—Princess Louise to Make Special Trip

The coming week will be busy along the waterfront, with several freight ships and three of the Pacific's largest passenger liners due in port.

The Ss. Niagara has left Honolulu and will arrive here Thursday evening or Friday morning, depending on weather conditions. She is carrying a capacity number of passengers—about 350 in all.

Friday evening the Ss. Empress of Asia will put to sea from Victoria en route to ports in Japan, China and the Philippine Islands. She will take out a good list of passengers including a number of travelers who had their passages out of United States ports cancelled.

Wednesday morning the Ss. President Jackson of the American Mail Line will arrive here from the Orient, but whether or not her cargo will be discharged here depends on the action of her crew. She is bringing a large consignment for this port.

LUMBER SHIPS
King Brothers expect to clear the Greek freighter Mount Hymettus, Capt. Constantine Valsamides, for London this evening. She has been at Ogden Point since Saturday evening loading between 700,000 and 800,000 feet of Vancouver Island lumber.

The Japanese freighter Getsuyo Maru is expected Wednesday morning to load for Australia and on Friday morning the Mount Atlas and the Adderstone will arrive to load for the United Kingdom.

SPECIAL TRIP

The Ss. Princess Louise has been commissioned at Victoria during the last few days and will sail from Vancouver this evening on a special trip to northern British Columbia and Alaska ports.

The Ss. Princess Norah, on the regular schedule, will sail from Vancouver on Friday evening of this week.

CALLED FOR MAILS
Christmas letters and cards for Australia went out from Victoria yesterday evening aboard the British freighter Anglo-Africa, which called at the Outer Docks on her way to sea from Crofton, where she completed her cargo of British Columbia lumber.

Before the ship put to sea at midnight she took on ninety-five bags of Canadian mail and 166 bags from the United States, which came here during the day from Seattle.

This consignment was the last from the northwest that will reach Australia in time for Christmas distribution. The Ss. Niagara, which will sail from Victoria December 2, will not reach Sydney until the day after Christmas.

caping British ships," said Mr. Eden. "It is a question of carrying out the policy of His Majesty's government."

The Conservatives cheered, but Mr. Wedgwood continued: "Why should they not have the right to carry arms from one foreign port to another when other shipping has that right?"

Mr. Eden did not reply.

Sir Percy Harris, Liberal, asked: "Does it mean we do not recognize the right of search?"

Mr. Eden answered: "Is it intended to prohibit the importation of arms not only to ports in Spain but also to ports in Portugal?"

Mr. Eden did not reply.

A Conservative back bench asked whether the legislation would depend on the agreement of other countries.

"We have our own problems," the Foreign Secretary replied.

"Do we recognize the right of search within the three-mile limit?" asked Mr. Wedgwood.

"A different question entirely arises within the three-mile limit," said Mr. Eden. "Nothing I have said affects the right within the three-mile limit."

NEUTRALITY COMMITTEE

The Foreign Secretary disclosed he was "not satisfied" with conditions surrounding the international non-intervention arrangement, but asserted he had been informed within the last twenty-four hours that France was anxious that the "hands-off-Spain" committee continue to exist.

Children Start 6,000-mile Trip

which was seized Thursday evening by the Canadian Government fisheries patrol vessel Malaspina and charged with fishing in Canadian waters. She was brought into the Inner Harbor and Saturday afternoon her master, Capt. Sigurd M. Jacobsen appeared in Provincial Police Court before Magistrate Henry Hall and fined \$300 and costs. He was charged under the Fisheries Act and not under the Customs and Fisheries Act, as is usual in such a case and which calls for confiscation as well as fine. Capt. Jacobsen, who pleaded guilty to the charge of fishing in Canadian waters without a license, left the court and returned to his ship, later sailing for Seattle with his catch of 15,000 cod. J. B. Famed Square Rigger To Have Life of Ease

Joseph Conrad Sold By Author Alan Villiers to Wealthy Party; Old Vessel Has Had Adventurous Career

Associated Press
New York, Nov. 23.—The handsome old square rigger Joseph Conrad, one of the last of her gallant breed, struck rich today and settled down to a life of ease.

Alan Villiers, author of "Grain Race" and "Whalers of the Midnight Sun," has sold the storm-scarred veteran to Huntington Hartford, member of the wealthy Atlantic and Pacific Tea Company family, and so she becomes a private hatch, one of the pampered rich of the seas.

Her owner had her moved today from Tedo Basin to the Jacobson and Peterson yards in south Brooklyn. There she will undergo extensive alterations, have her face lifted, the sign of fifty-four years of battle with the seven seas removed, before she takes her place among the sailing elite.

Probably no vessel afloat has poked her slender bowsprit and clipper nose into stranger places than this staunch 212-ton veteran of the days of wooden ships and iron men, when steam was something to sneer at.

BUILT IN DENMARK

She was built in Copenhagen in 1882, and when Villiers found her in 1934 as he searched European harbors for a typical fourmaster, she was serving as a Danish training ship. Her name then was George Stage and Villiers promptly changed that to Joseph Conrad in honor of the famous author of sea tales.

Her last two years have been jammed with excitement. Villiers took on a small crew and a party of sixteen cadets, set out to sail her around the world. A New Year's gale blew her on the rocks off Brooklyn, not far from her present berth. It was a month before she was repaired, and sailed for Rio, across the south Atlantic, and round the Cape of Good Hope to Bali through terrific storms in the Indian Ocean.

Then as Villiers described it: "Onwards to Singapore before the southeast monsoon—and then north about to Australia, by way of the China Sea—Balabac Strait—the treacherous calm of the Sulu Sea through which we battered a worrying 200 miles in ten days—Tawi Tawi, strange outpost of the Philippines, met pirates of Balimbing and the child princess of Malacca who wanted to kidnap Stormalung (the youngest cadet) and marry him."

TRACKLESS WASTES

"Onwards again into the broad Pacific, across 2,000 miles and more where no square rigged ship had been since the treasure laden galleons of Spain, Callao-bound from Manila, lumbered their leisurely way centuries ago—now in the doldrums, and so at last to the islands of the Bismark Archipelago; with a call at Nisam's palm-fringed lagoon—to the Trobriands, happy islands, almost

FORM PICKETS IN VANCOUVER

But Work on Deep-sea Ships Goes Ahead, as 1,000 Longshoremen on Jobs

Canadian Press
Vancouver, Nov. 23.—Vancouver's waterfront was picketed today for the first time since the summer of 1935 as members of the International Longshoremen's Association here put into effect the strike they announced Saturday.

According to William Taylor, spokesman for the I.L.A. group of about 200 members, the entire union membership is on the picket line, which stretches from end to end of the waterfront.

Police were notified of intention to picket peacefully, but no additional police have been posted on the harbor.

Meanwhile, loading operations were continuing at top speed. Almost 1,100 men were dispatched this morning from headquarters of the British Columbia Shipping Federation to work deep-sea vessels now in port. The B.C.S.F. has no affiliation with United States unions.

Officials of British Columbia steamships and Union Steamship Company reported their lines unaffected by the I.L.A. walkout. Both lines report large numbers of young farmers have arrived from the interior of the province who are willing to work ships in the event of a widespread strike.

This morning officials of the local I.L.A. conferred with members of the Vancouver and District Waterfront Workers' Union, the organization which tied up Vancouver harbor in 1934.

No announcement was made following the meeting. The Vancouver and District Union has no controlled longshore operations here since the 1935 walkout.

U.S. Has Eyes on Christmas Island

But British Flag Flies There, Although State Department Official Says British Sovereignty Not Recognized

Associated Press
Washington, Nov. 23.—Air-minded United States Government officials, authoritative circles said today, are casting covetous eyes at tropical Christmas Island in the Pacific, where the British flag has flown for nearly a half-century.

Much larger than Howland, Baker and Jarvis islands, the nearby bits of land for the occupation of which Congress appropriated \$35,000 last June, Christmas is also more nearly on the direct air route between the United States and New Zealand and Australia.

Almost astride the United States defense line in the western Pacific, it has a big lagoon that might provide a harbor for naval surface ships as well as aircraft.

While some informed quarters professed belief no move was planned for the present, a State Department official said flatly that "the United States does not recognize British sovereignty there."

The island, which is forty-five miles long and has a land area of more than 200 square miles, was taken over by Great Britain in Queen Victoria's reign, officials said.

The United States merely "reserved all questions" in 1888 upon learning the United Kingdom had been hoisted by Admiral Sir William Wiseman of H.M.S. Caroline, and since then the matter of sovereignty has been slumbering, it was said at the State Department.

One of the world's largest coral atolls, the island was dubbed Christmas by Captain Cook who discovered it in his ship, the Resolution on Christmas Day of 1777.

The United States claim dates from its rediscovery by Captain John Stoen of New Haven "prior to 1857." The island is occupied now by three Europeans and twenty or more Tahitians. The British deputy resident at Fanning Island is its governor.

The figures for height serve to distinguish high water from low water. Where blinks occur in the tables the tide rises or falls continuously during three of the usual tidal periods.

The height is in feet and tenths of a foot, measured from the average level of lower low water.
